Ignited Turpentine Kills College Student

Stillwater, Okla., Nov. 10 (AP)—

Turpentine, mistaken for water during a "playful fight" in a college boarding house, resulted in the death of a New Mexico student when the inflammable liquid ignited.

Bernard Freeburg, 21, Lordsburg, N. M., suffered burns on three-fourths of his body yesterday when a classmate, Edgar Huxley, Blackwell, Okla., tossed a jar of turpentine at him during a water fight. Freeburg died a few hours later.

The Oklahoma A&M students were scuffling and Freeburg ran into a bathroom, Huxley said. When the New Mexico youth threw water, Huxley picked up what he thought was a jar of water and pitched it toward Freeburg.

Talented Convict Refused Pardon

Nashville, Tenn., Nov. 10 (AP)—The Tennessee board of pardons and paroles has decided that six days of freedom for life term convict Frank Grandstaff was enough, even if he has written three novels and a cantata in his prison cell.

The board yesterday decided unanimously against recommending freedom for Grandstaff, who recently made a six-day special trip to Big Spring, Tex., to hear the premiere performance of his musical composition.

Grandstaff, 47, is serving a life term under Tennessee's habitual criminal law. He has served time in five state prisons.

After his trip to Big Spring, Grandstaff applied for a pardon. He said if he got it he would spend Christmas with his aging mother in Decatur, Ind.
