California Bears Lead PCC in Both Offense, Defense

Los Angeles, Nov. 10.—California's Bowl conscious Bears can back up their string of eight straight victories with statistics. Figures released today by the PCC commissioner's office showed the Californians leading in total offense and defense. California has combined its offensive weapons to average 378.8 yards a game, and the PCC co-champions have allowed 232.9 yards per game from rushing and passing. They lead Oregon, whom they meet in a key game Saturday, by 16 yards per contest in total defense.

In losing to Oregon State last week, Idaho managed to collect enough yardage to maintain the lead in rushing. The Vandals have averaged 271 yards in seven games. The Trojans of USC are undisputed leaders in passing offense. The consistent sharpshooting of Jim Powers has given USC 99 completions in 163 attempts, which heads the list for number of completions and the best average of .607. The Trojans also lead in yards gained with 1307. Only nine USC passes have been intercepted.

Stuhlreher Asks Modified Pact in Rose Bowl Deals

Chicago, Nov. 10 (AP)—Harry Stuhlreher, Wisconsin athletic director, is in favor of a compromise in any new Big Ten-Pacific coast conference Rose Bowl pact that may be signed. The "Little General" of Notre Dame's famed four horsemen days suggested at a quarterback club meeting Monday that a Big Ten team be permitted to repeat in the Rose Bowl every two years instead of three and that the Pacific coast conference do the same.

The coast circuit sends its champion into the bowl. The Big Ten does not permit one team to appear in the bowl more than once in three years, even if it wins the title. (The Big Ten repeat ban has drawn strong criticism on the West Coast.)

The total points scored by both teams in the Basketball Association of America rose from 135.53 in 1946-47 to 160.02 per game last season.

Zealous Warden Arrests Self for Game Violation

Republic, Wash., Nov. 10 (AP)—Game Protector Lawrence Sprengel takes his work seriously. He arrested himself for an unintentional game law violation. He also paid the \$27.50 fine levied by the judge after he hailed himself into court. Just a few hours before the close of the grouse season Sprengel decided to go hunting.

He killed one bird and thought he saw two more by a bush. He fired and missed—he thought. He fired again and hit. When Sprengel went to retrieve his game he had killed both. That made three—one more than the law allows: "If I had found another hunter with three birds I would have arrested him," Sprengel said. "There was only one thing to do and that was to arrest myself."

They were the first birds Sprengel had killed in five years with the game department.

GETS MOOSE WITH A BOW

Helena, Mont. (AP)—Waldo Newton recently flattened a bull moose (weighing at least 1,100 pounds) with a bow and arrow. It was Newton's first moose he has previously slain. The moose was a brown bear and deer and elk with bow and arrow. For the moose he used a bow with a pull of 57 pounds. His arrows were 27 inches long with heads more than an inch wide.

The heads were made of clock-spring steel. Newton's first shot was wide. The second entered between the ribs, through the heart and came out of a shoulder.
