

Grain Crops Estimated Yields Larger Than Needed

Washington, Nov. 10 (AP)—The agriculture department, in its next to last report of the year, today estimated this year's corn crop at 3,537,618,000 bushels. This is 119,368,000 bushels less than the 3,476,986,000 forecast a month ago.

Justice Douglas Forgives Horse

Yakima, Nov. 10 (AP)—Kenneth, favorite horse of U.S. Supreme Court Justice William O. Douglas, has been forgiven. "It wasn't his fault," Douglas commented, referring to the mountain mishap when the horse reared and fell backwards upon him. The accident happened a month ago and sent the 51-year-old jurist to the hospital with 17 broken ribs. Yesterday's outing to the nearby ranch of Elton J. Gilbert, his companion on the trip, was one of the first for Douglas since entering the hospital. He is expected to be released within a few days, but plans to rest in the south before returning to Washington, D.C.

16 Year Youth Sent to Prison

Klamath Falls, Nov. 10 (AP)—A prison term was ordered today for William David Roach, 16, the youngest person sent to the state penitentiary from Klamath county in recent history of the local circuit court.

The boy participated in an armed robbery at Malin September 22 and last Sunday attempted to break out of the county jail. In passing sentence, Judge David R. Vandenberg remarked that Roach was the only person under 18 he had sent to prison in his nine years on the bench, and told the youth: "You are not fit to be at large."

The sentence was not to exceed three years—the minimum for armed robbery. A companion in the Malin robbery, Wesley Le Roy Davis, also 16, is held in jail here and probably will be taken into juvenile court.

The boys, armed with a revolver and a knife, held up Howard Henderson, Great Northern station agent at Malin and took \$56.42 and the agent's car. They were apprehended north of Alturas, Calif., less than two hours after the robbery.

Last Sunday at the county jail Roach got his main floor cell open on a pretext, and tried to crowd past Deputy Dale Mattoon, calling to Davis and two other boys in the cell: "Come on, we're getting out of here." But Mattoon said he shoved the youth back in the cell before he passed the door.

Missions in China Protest Aid to Chiang

New York, Nov. 10 (AP)—A Christian Missions executive said today 330 Christian leaders in China have protested further United States aid to the nationalist Kuomintang because of recent bombings.

The protest arrived by cable Tuesday, according to Dr. Frank Cartwright, chairman of the China committee of the Foreign Missions Conference of North America, an interdenominational group. Cartwright said the cable protested Kuomintang bombings "killed numerous innocent Chinese civilians" and asked U.S. churches to urge the government to stop further aid.

The cable was signed by Geo. Wu, chairman of a meeting of institutional representatives at Shanghai. Portland, Nov. 10 (AP)—Another longshoreman surrendered to police yesterday on a grand jury indictment charging him with participating in the September 28 pineapple riot at the Dalles. He was Frederick Settle, Portland, the 23rd CIO longshoreman cited in the riot. He posted \$2,500 bond.

View of the 'Kremlin'—Featured at the Russian embassy in Washington, D. C., celebration of the 32nd anniversary of the Red revolution, was centerpiece replica of a Moscow Kremlin building, mounted on a large cake. At left, the wife of Russian Ambassador Alexander Pantushkin serves a slice of the foundation cake to Joseph Davis, former U. S. Ambassador to Russia. (AP Wirephoto)

Still Hopes for Russian Peace

Washington, Nov. 10 (AP)—President Truman expressed the hope today that the United States can get along with Russia. He said he has always hoped that their problems will be worked out peacefully and continues to hope that this can be done. And he said the effort will be continued through regular diplomatic channels.

This was his view when he was asked at his news conference about the meeting of the foreign ministers in Paris. The president said in response to questions today that he knew of no second atomic explosion in Russia. The president was asked at a news conference if he had any evidence of another Soviet atomic blast like the one he reported Sept. 23. He said there has not been another so far as he knows.

Western Farm Crops Prices

Washington, Nov. 10 (AP)—In only two western states have farmers bettered last year's figures for cash received from marketing their crops and livestock. These are New Mexico and Washington. Income figures for the first nine months of this year as made available by the agriculture department show a drop in livestock returns from all 11 states.

New Mexico and Washington made up the loss in crop marketings. Idaho, Arizona and Washington also all reported larger incomes from this source in September, compared with the same month a year ago. Figures for the states (1948 in parentheses) include: Washington, livestock \$136,151,000 (\$147,012,000); crops \$242,426,000. Oregon, livestock \$106,183,000 (\$117,843,000); crops \$130,304,000 (\$139,858,000); total \$236,487,000 (\$257,701,000).

Aluminum Industry Expanded by Kaiser

Houston, Nov. 10 (AP)—Henry J. Kaiser said today the nation's aluminum industry has a great future. The California industrialist said the main question about his role in the industry is "how far can we expand?" The Kaiser aluminum interests this month, he said, will turn out about 32,000,000 pounds of aluminum, compared to the previous monthly high of 24,000,000. October production, he said, was 20 percent above his plant's normal capacity. "Aluminum is a new material of a new age," Kaiser said. "It is

substituting now for other materials and also is creating new products. In the automobile field alone its possibilities have not even been scratched." He said his plans for expansion in the aluminum field are indefinite at present but that experiments are under way at his Baton Rouge, La., alumina plant. Experiments are being made there with raw materials being obtained from Jamaica in the British West Indies.

Zontas Told of Hoover Plan

The Hoover commission report and recommendations and what can be accomplished with them through interested public support were discussed for the Zontas club's luncheon program Thursday noon by Dr. A. Freeman Holmer of the political science department at Willamette university. Dr. Holmer outlined the history of the commission and its procedures of work, also he briefly touched on the recommendations. "If we are to get anything out of the recommendations of the commission there must be public interest and support, and women's groups are in a position to give such interest and support," the speaker said.

Dr. Helen Pearce introduced the speaker. Special music included whistling solos by Miss Marjorie Jordan, accompanied by her mother, Mrs. Arthur Jordan. Miss Lena Belle Tarlar was program chairman for the day. A business session will be held in conjunction with the club luncheon next Thursday noon at the Golden Pheasant.

Little Profanity of Tot No Cause for Alarm

Los Angeles, Nov. 10 (AP)—If your youngster indulges in a little mild profanity, don't become alarmed and think you're rearing a problem child. So advises Dr. Benjamin Spock, author of the best seller "Baby and Child Care," and an associate professor of psychiatry at the Mayo foundation. Dr. Spock said a purple passage or two is natural behavior in children over six years of age. It shows they are trying their wings in a bid for independence. The halibut sometimes attains a size of nine feet and a weight of 700 pounds.

Criminals' Way Grows Harder

Because the process of crime detection has become a science in recent years, many criminals now plead guilty rather than face the evidence during a jury trial. So said Joe Murray, chief clerk of the state prison, during a talk before the Salem Lions Thursday noon. Murray listed the various methods by which experts trace criminals, pointing out that fingerprints have constituted the most satisfactory evidence that man has devised. Photographs, because of their differences, play a lesser part in modern day crime detection. He characterized the forger as the most "foolish" of criminals because handwriting experts can determine his identity within a short space of time. The ultra violet light in detecting the various shades of ink was described by Murray, who said that each nation had a different characteristic in the matter of handwriting.

Killed in Collision
Pendleton Nov. 10 (AP)—Jack Day Lewis and Mrs. Alice Ferrell, both of Pendleton, and Lowell Arthur Vabman, Beaver-ton, Ore., were killed early today on U.S. highway 30 about 16 miles west of Pendleton when their car collided with the rear of a disabled Consolidated truck parked on the edge of the highway, State Police Sgt. N. W. Smith reported.

Wherry Assails Truman Policies

San Francisco, Nov. 10 (AP)—President Truman's domestic and foreign policies were assailed bitterly before the National Retail Lumber Dealers' association here today by Senator Wherry (R., Neb.). "President Truman's technique leads down the road to communism because it attempts to buy freedom with material things," Wherry said in a prepared address. The senate minority leader in the 81st congress criticized the reciprocal trade agreements act, tariff cutting, foreign aid and administration spending.

Wherry likened the "promisers of today" to the "medicine men" of the gold rush days of '49 in California. The '49ers, he said, called the promises of their day a "gold brick," but today "it is the welfare state." "All the gold dug by the '49ers," he continued, "would not pay the first installment on the welfare state. And the direction America is being led, points to bankruptcy more devastating than the atomic bomb." Wherry said the principles on which the country was established "are being blacked out." He added: "Socialism and its front-runner, communism, are spreading their evil doctrine over other parts of the world; and the backwash is infiltrating right into the heart of our government."

On foreign aid, Wherry said: "America has poured \$35,000, in cash and goods into Europe, under 23 money spending schemes, and those countries are still crying for more."

OK Aviation Gas Export to Yugoslavia

Washington, Nov. 10 (AP)—The government today approved export of 40,000 barrels of aviation gasoline to Yugoslavia. It was the latest in a number of U.S. actions to bolster Marshal Tito of Yugoslavia in his scrap with Russia's leaders. The action was announced by the commerce department, which issued licenses permitting the gasoline shipment.

Yellowstone National Park, Wyo., Nov. 10 (AP)—A snowstorm early today closed all roads in Yellowstone national park. About eight inches of snow fell in the Wyoming, Montana-Idaho playground over night.

Marie Dorion Marker Urged

A highway marker at the intersection of the Gervais road and highway 99E in memory of Marie Dorion, Indian wife of an interpreter with the Astor party of 1810, is recommended by Old Oregon Trail, Inc., Alfred A. Loab, president. Accepted burial place of "the Dorion woman" is under the church at St. Louis.

Suggestions of the association for markers commemorating historical places, persons and events, have been turned over to the state highway commission.

Another suggestion is a marker at the Barlow home at Barlow, built by Samuel K. Barlow, who constructed the first wagon road south of Mt. Hood in 1846, which was in use as a toll road for 70 years.

Erection of markers will make Oregon highways more interesting and create community pride, Loab believes. He thinks that a few thousand dollars so spent will cause motorists to pause and read and thus spend more time and dollars in Oregon.

Spoils of Columbian Riots—Wrecked church stands in ruins in Arauca, Columbia, as political riots flare through the country, leaving a wake of ruined buildings and heavy casualties. The newspaper El Liberal reported that rioting at one point had reached the proportions of a "pitched battle." The pre-election riots have claimed some 300 lives. (Acme Telephone)

Offers to Wed Persistent Lover

Bremerton, Nov. 10 (AP)—A 34-year-old husband, whose wife is charged with attempting his murder to put an end to what she called his persistent love making, today dusted off an old proposal of marriage.

The husband, Wilford Piatt, showed reporters a letter which he received from a New York City woman. "Wilford," it read in part, "I would never get tired of your love making." Piatt has said he wanted his wife back despite her signed statement that she made a \$324 down payment on an unfulfilled plot to have him killed.

"I'm not interested in any proposals unless the woman has enough money to help me get my wife out of jail," he said. The letter had been misdirected to Mrs. Margaret Piatt, held on \$3500 bond. It was opened by sheriff's deputies as routine and forwarded to Piatt. The writer described herself

Two Children Lose Lives in Home Fire

Mountain View, Calif., Nov. 10 (AP)—Two of ten children in a rural family burned to death early today in a fire of unreported origin which destroyed their home nearby.

The mother, Mrs. Ynez Andona, and two of the other children were burned severely. The six others escaped the flaming structure. Their father was away at the time. Burned to death were Joe, two, and John Andona, five.

Snow in Mountains
The state highway commission reported new snow in mountain passes today, but it said all roads are safe. It said the pavement is either bare or sanded on all roads.
