

Future of America—Accomplishments of the 1949 4-H club year which ended October 31, are being reviewed as 28,000 Oregon 4-H club boys and girls participate in National 4-H Club Achievement Week. During the past year, the addition of 200 new clubs brought the state total to 3,400 and total enrollment increased by 2,000, according to L. J. Allen, state 4-H club leader. Achievement week also marks the start of the 1950 club year, so old and new clubs alike are re-organizing. As their slogan implies, club members strive to "Make the Best Better."

Over Quarter Million Worth Of Timber Sold Wednesday

Over one-quarter of a million dollars worth of timber lands under the jurisdiction of the bureau of land management was sold in Salem Wednesday, according to District Forester A. P. Collins who conducted the oral auction sale.

Eight tracts of timber with a total estimated volume of approximately 17 million feet board measure of timber with an appraised value of approximately \$147,000 were sold for a total of \$268,603.75, or roughly \$120,000 more than the appraised price.

A high bid of \$30 per thousand was submitted for Douglas fir timber. After a rather depressed lumber market, it now appears that competition for standing timber has reached a new level.

On one tract of timber located in Yamhill county, 43 separate bids were entered by seven interested parties before the high bidder had been determined. On this particular tract the timber was offered for sale at \$18,280, and this tract of timber was sold for \$34,084.

Substantial competition developed on all but three of the eight tracts of timber offered for sale. Two parcels of timber

Don't Blame It on Baby

By BETTY CLARKE

There is no reason to get round as a butterball just because you've had a baby, says movie star Gale Storm. Gale is proof of the statement. She is mother of three, looks like a teen-ager, and still wears a size 10 dress. Says she: "Any woman can keep her figure in spite of motherhood, if she will keep busy, control her diet before the baby is born, and do post-natal exercises."

She is particularly in favor of women keeping busy before the big event as it helps to keep their minds on other things, she says. Also it is a good idea to keep the impending event a secret, as people think they must talk to you about it, which only serves as a constant reminder.

If you get out and work, you will not be tempted by the ice box all day, another reason the working girl can help keep her weight down. Contrary to what people think, says Gale, women do not have to eat like horses before their babies are born.

She learned to control her appetite, and balance her menu, though it is difficult at times.

At one time when she unexpectedly went on an ice-cream binge, she avoided all other sweets. And, that's the way to balance your diet your doctor usually will tell you, she says.

If you are supposed to have so much sugar, and find yourself craving a particular sweet, eat more of that, and give up other sugars.

Gale usually has managed to work until a month or two before her babies are born. She wears low-heel shoes, straight skirts with flare back jackets. Skirts are dark black brown or blue, and jackets are of bright colored fabrics.

This is the time, says Gale, when you will need more color, and that goes for your face, too. Use a little rouge and don't forget your lips.

O&C lands are payable to the land grant counties of western Oregon in lieu of taxes as provided by the act of congress of August 28, 1937.

This act requires that the Oregon & California re-vested railroad grant lands be managed upon a sustained yield basis in order to encourage industrial and community stabilization. Additional tracts of timber will be offered for sale in February, 1950.

On only three tracts competition did not develop. On all of the other tracts competitive bidding resulted in a sale price substantially above the appraised price. It was pointed out by District Forester Collins that 50 per cent of the gross receipts from sales of timber on

Other actresses complain to me that when they leave their children to the care of a nurse, they get to love the nurse more than the parent. The reason is, I think, they are treating their own children as if they were boarding them for somebody else."

Cave-in Traps Two—Two workmen were trapped by a cave-in when a side tunnel at the bottom of a 60-foot shaft on the University of Washington campus in Seattle collapsed. Rescue workers are shown on hoist with body of first victim recovered. (AP Wirephoto.)

Lie on floor, put hands on back of head, raise legs slowly, keeping straight. Do it five times at first.

Or try lying on the floor, rising slowly to touch toes. These exercises are good says Gale, but your own doctor can prescribe some for you. The point is though, that they must be done faithfully.

Westport, Nov. 10 (AP)—The steamer Seamar was refloated yesterday after running aground while turning out of a slough into the Columbia river channel. The ship was heavily loaded with lumber.

Queen bees may live for six or seven years, but are usually replaced when they fail to lay large numbers of eggs.

Why get all excited about the new gold rush in Alaska—seems we have a gold rush right here in Salem. In Alaska they are panning at night with the aid of gasoline lanterns. Many of the boys who went to war gave up lucrative jobs, and worked for Uncle for \$30 per. Some of them never came back. In commemoration of the latter and with due respect and thankfulness to all of them we are going to close our store all day Armistice Day to acknowledge, in our small way, our thanks to those who made it possible for us to be in business today.

Lane County Leads In Douglas Fir Cut

Portland, Nov. 10 (AP)—Oregon and Washington's Douglas fir lumber cut last year was 26.1 percent of the nation's lumber output, the West Coast Lumbermen's association reported today.

In a detailed summary of 1948 operations, the association reported 9,405,103,938 board feet cut. Its value was \$690,000,000.

Two thirds of the total was produced by Oregon and Lane county was far in front with a cut of 1,311,573,145 feet. In second production place was Oregon's Douglas county at 796,509,333.

The Douglas fir industry employed 147,378 persons last year, the report said.

4-H Scholarships And Trip Awarded

Corvallis, Nov. 10 (AP)—Scholarships and a trip award to five Oregon 4-H club members were reported today by the state 4-H headquarters.

They are first annual awards by the Standard Oil company of California for special merit in 4-H work. The winners:

Pat Horning, 19, Stafford, and Charles Hornecker, 17, Hillsboro, both Oregon State college students, \$300 scholarships each; Jo Ann Roberts, 17, Shedd, \$200 scholarship; Sally Stilwell, 17, Astoria, an all-expense trip to the national 4-H congress in Chicago.
