

Seeks out Enemy—Two views of the Ryan "Firebird," a model in simulated flight (bottom) and an actual missile (top), show the Air Force's first air-to-air guided missile. The Firebird is a rocket-propelled fragmentation shell which seeks out and strikes its air target by means of a self-contained radar navigational system. Designed to be launched by a "mother" fighter plane in the direction of enemy aircraft which the piloted plane has tracked by radar, the new missile seeks out its target regardless of visibility or inclement weather. 'Tame' Panther Adds Drama To Radio Contestant Show

Washington, Nov. 15 (AP)—A Panther so tame that it "doesn't even need a leash" went native in a radio studio Monday and tore a mink furpiece from the neck of a woman program contestant. The woman, Mrs. Francis I. McGarraghty, was not injured, but her neckpiece was.

The radio audience of station WQQW, got in on part of the drama, unscheduled as it was, on the program known as "Brunch with Nan and Bill." It is conducted by staff members Nan Garcia and Bill Carmichael.

Mrs. McGarraghty, chairman of a benefit committee for the Smith College alumni club, was talking about the club's forthcoming benefit show.

On the sidelines, awaiting their turn to be interviewed were Bob Hicks and his small, brown panther, a native of Florida's Everglades.

There was an unexpected growl, and the panther leaped for the furpiece. The animal pulled it from Mrs. McGarraghty's neck and dragged it to the floor.

While the radio audience was wondering what had happened, Mrs. McGarraghty announced calmly that "he didn't even scratch me."

The panther was removed from the studio to the zoo.

Suit to Block Church Merger

New York, Nov. 15 (AP)—A civil suit was started in supreme court Monday to block a scheduled merger of the Congregational Christian church and the Evangelical and Reform church. The action would affect some 1,850,000 churchgoers over the nation.

The Cadman Memorial Congregational church of Brooklyn, which brought the suit against the general council of the Congregational Christian church, contended that individual churches would lose their autonomy if the merger is permitted. Opening pleas for both sides were presented before Justice Meier Steinbrink.

The suit is based on the legal rights of the individual churches concerning their property in what makes up the Congregational Christian church.

Loren N. Wood, opening for the defense, told the court:

"Your honor, if a long while from now you should find yourself in a far better place, occupying the same position you do here, I know that you will find that the General Council of the Congregational Christian church has done its part."

"I will," Judge Steinbrink replied. The answer drew a laugh from courtroom spectators. Judge Steinbrink rapped for order and warned against facetiousness.

"I know that when we all get there," he commented, "we will find that we all were seeking the same thing through different paths."

The merger of the two church affiliations is scheduled to be concluded at a meeting in Cleveland next June. It will unite the two denominations and form the United Church of Christ.
