

**Power for Germany**—Waters of Riss creek are dammed to flow through a 4½-mile tunnel under two mountain ranges to Walchen Lake near German Tyrol border. It will increase Lake's power production by 100,000,000 kilowatts a year.

## Scio Man Hurt In Auto Collision

Allen McDonald, of Scio, is hospitalized here with injuries received when the automobile in which he was riding crashed into the rear of a loaded logging truck near Mehama late Monday afternoon. Elton R. Brown, Mehama, driver of the truck, was cited by state police for parking on a public highway and after pleading not guilty in justice court at Stayton posted \$50 bail. Trial date has not been set.

W. R. Taylor, Albany, driver of the automobile, told state police he was temporarily blinded by the lights of an approaching car and did not see the unlighted truck on the highway. The roof of his machine was literally torn off by a log which crashed through the front window.

Neither Taylor nor his other passengers were seriously injured, he escaping without any bruises as did Chet Hanen, but Loren Dickenson, both of Albany, received cuts and bruises. The accident occurred on the Little North Fork road about 500 feet east of highway 222 near Mehama.

For a flavor change, bake fish fillets in a creole sauce and serve with potato puff and buttered spinach.

## GOP-Demos Coalition Scored

Portland, Nov. 15 (AP)—Senator Wayne Morse said last night the coalition of republicans and reactionary southern democrats was the "great boner" of the 81st congress.

"I can't understand why my party can be interested in getting its name on bad democratic legislation," he told an audience sponsored by young republicans in a series on government affairs.

The Oregon republican declared the "archaic procedures" of congress killed off much good legislation. "They stand as a great barrier to good government."

"Let me control the procedure of the legislative body—and I will control the legislation, Ma-

majority rule is stifled by parliamentary tactics," he added.

He also criticized the system whereby the chairmanships of committees are decided by seniority instead of a vote of the committee. "Unless you win your fight in committee, you have practically no chance at all on the floor," Morse asserted. He said the chairmen hold the power of procedure.

He proposed that three days each week be set aside for debate and the other three for committee work. "A senator can't be in two places at once," he said in explaining debate is often scheduled on the floor while half or more senators are in committee meetings.

### VFW Initiates Two

Willamina — James Thompson and Hugh Cooley were admitted to membership in the VFW at their meeting. Application for membership by Clarence Hopkins was passed.
