Ellsworth Speaks For Lebanon Club

Lebanon — Retrenchment in government spending to avoid certain disaster was emphasized by Rep. Harris Ellsworth, fourth congressional district, at the dinner meeting of the Business and Professional Women's club. Rep. Ellsworth pointed out that government expense far outstrips its receipts, and averred that in case of dollar devaluation, financial catastrophe would result. The congressman touched on the constructive work being done as a result of the Hoover commission report.

Answering a query on the Columbia Valley Administration Rep. Ellsworth's opinion was that the social and economic situation in the northwest does not warrant any such concentration of federal authority. He spoke of the work already pushed here in the past 15 years with Bonneville and Coulee dams a reality, and those of the McNary and Chief Joseph under construction. The north-west, he affirmed, is solving its own hydro-electric problems satisfactorily.

The representative gave side-lights on congressional procedure and complimented his audience with brief thumbnail sketches of leading congresswomen. Dr. J. C. Booth introduced the speaker.

MONMOUTH—The Monmouth Social club met at the home of Mrs. Fred J. Hill with Mrs. Belle McKnight as co-hostess. Following the business meeting Dr. Louis Kaplan spoke on "Modern Trend of Child Discipline." At the close of the afternoon refreshments were served.

Creams Tone Skin for Winter

(AP Newsfeature)
One good reason for using creams at the end of the summer is dry skin. Whether you are back to school or on a job this fall, skin will need extra-special treatment until it gets back to normal. If it is flaky in patches or looks leathery about eyes and mouth, sun and wind may have dried the natural oils of your skin.

You'll need super-cleansing and mild stimulation to smooth your skin to normal. A little kit containing several super-rich night emollient and cleansing creams is ideal while you are going through your dry-skin session. Super-rich cleanser can absorb accumulated soil without massage. You can apply and remove it with a cleansing tissue, then apply a cooling complexion lotion and a foundation which will impart a new luminous skin beauty for fall.

Young girls do not need frequent slathering with creams. If proper cosmetic preparations are used just when needed, you will not get dependent on them. Soap and water is a good cleanser in the meantime, creams and lotions are good for removing makeup. But super-rich night creams should be used when they are required.

Packaged Ice Cream Proves Help

An old-fashioned favorite brought up to date, thanks to modern packing methods, is this mince pie a la mode. A speedy dessert, you couldn't find one that would make more of a hit, combining as it does flaky pastry, meaty mince meat, and ice cream. Means simply having a carton of pre-packaged ice cream in the freezer unit of the refrigerator to cut just before serving; heating a can of prepared mince meat, and filling the triangles of pastry. The pastry can be baked the day before, cut in individual servings for pie before baking. No soggy undercrust this way, and you can make up just as many pieces of pie as you need.
