### Embers from Burned Gym Scattered Far

Stayton—Charred bits of shingle are grim reminders of what a good stiff breeze might have done the night the Stayton high school gym was burned.

D. George Cole was exhibiting a glass fruit jar filled with the blackened bits that he had picked up around the new gym which is being built on West Locust street for Union High School 4J, a distance of five blocks away.

Absence of a wind the night of the fire is believed to have been fortunate, in view of the fact the embers carried so far away on a calm night.
