Heads Up!

By J. H. WILLETT of the Capital Drug Store

In school days the expression "Heads Up!" was often heard and while it wasn't appreciated by us as children it did help to give us better appearance and posture.

How much more alert, active, and poised appears the individual with good posture, and actually he does have a greater sense of well-being because of his good appearance.

You would be surprised at how much good posture can contribute to your health, too. Speaking of your health, have you had your physical examination this year?
