Meet Glenn Graber— Another "Do-it-yourself" American He's made his own way!

Glenn J. Graber, of Hartville, Ohio, didn't believe there was only one way to run a farm. And was willing to strike out on his own to make his new ideas pay off. He applied his Army-learned knowledge of modern machinery to farming. Even had a radiotelephone in his truck to contact city markets! At 26, Glenn now has two partners, 600 acres in Hartville, rents 560 more in Florida, raises a million radishes a day. From a start with 120 acres in 1941 he's won the best kind of security—the kind you make for yourself.

It's a Fact... It's a fact that the assets of each of the 584 life insurance companies, separately invested, add up to more jobs and better living for all... because:

- While 78,000,000 people are using their money to provide family protection through life insurance, they also are helping America itself "go places."
- For these funds, needed to guarantee the payment of policies, are loaned out and are actively at work. They help do such things as extend gas and electric lines, pay for new railroad cars, improve farms, build homes, and provide money for business of many kinds.
- This means that each of these 78,000,000 policyholders, through his life insurance, has a financial stake in the growth of America and its enterprises.

To make sure you are getting the most out of your present life insurance, see your agent. Life insurance is a service! Your agent is trained to help you use it most effectively. The Institute of Life Insurance—central source of information—60 E. 42nd St., New York 17, N. Y.

★ It's the American Spirit!

YOU'LL find Glenn Grabers on every Main Street in America! Folks who know from their own experience that there are still "new frontiers" of opportunity for people with ideas. They know you can still do more for yourself than anyone will do for you.

To have impressive proof of this modern "do-it-yourself spirit," just look at the fact that 78 million people are voluntary owners of life insurance. They use it for retirement, to educate their children, for help in sudden financial emergencies. Many, of their own free will, pass up some of the things they want today for the satisfaction of knowing that their families are provided for.

Because this is a basic desire of so many Americans, the need for life insurance has grown big. The life insurance business has grown to match this need. Through their more than 150,000 trained agents across the country, 584 separate life insurance companies aggressively compete to help Americans help themselves!
