EXPLANATION—The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which scoring margin has been weighted against strangth of opposition. This does not necessarily mean that a 50.0 team should defeat a 40.0 team by exactly 10 points in the future. Teams rorely follow post performance that closely. Furthermore, the ratings are not adjusted for such factors as home court, injuries and ineligibilities. The Dunkel system correlates records of all college teams and was started in 1929.

won 11 straight contests by an average markin of 23.1 points. This figure, weighted by the average rating of H. C. opponents, resulted in a Power Index of 82.7.

a 7-2 record while playing one of the country's toughest sched-
