

East Salem to Have Lions Club

Stearns Cushing, Jr., was named president of a group forming an East Salem Lions club at a meeting here Wednesday night. The charter will be held open until the end of February with weekly meetings to be held every Tuesday noon.

Other officers are Roy Stewart, John Riches and A. E. Danielson, vice presidents; William Pero, secretary; L. K. Lawrence, treasurer; Joseph V. Tompkins, lion tamer; Clayton M. Foreman, tail twister, and Morris Ebner, Ace Fish, Virgil Pade and Harold Godkin, directors.

The club has an initial membership of 40 from men living in the area east of Capitol street and between Market and Mission streets.

16 Killed in Plane Crash

Albacete, Spain, Jan. 19 (AP)—A Spanish transport plane, apparently lost in a heavy fog, crashed into a mountain peak 30 miles south of here yesterday. All 16 persons aboard were killed, burned almost beyond recognition.

It was Spain's worst air crash since 27 persons were killed in the wreck of a passenger plane Dec. 23, 1948, near Tarragona.

The victims yesterday included two lieutenant colonels and a major in the Spanish air force. The plane was enroute to Madrid from the Cartagena air school. It crashed near the town of Tobarra.

Bend Has Winter to Spring in Few Hours

Bend, Ore., Jan. 19 (AP)—From winter to spring within the space of a few hours last night was the transition experienced in central Oregon.

Early in the evening the mercury stood at 3 above in Bend. This morning it stood at 39 and was still rising, as a warm chinook wind was blowing.

There are about 200 subsidiary craters on Mount Etna besides the main crater at the top.

Helping Hand—Dressed in a Red Cross uniform, Mrs. Alben Barkley, wife of the vice president, joins with other senate ladies in sewing for the Red Cross at their weekly meeting at the capitol. (Acme Telephoto)

New U.S. Newsprint Starts in Alabama

Birmingham, Ala., Jan. 19 (AP)—A \$32,000,000 plant—once only a dream of southern newspaper publishers—today is providing the first new domestic source of newsprint in more than a decade.

The Coosa River Newsprint company's huge plant went into production yesterday, three months ahead of schedule. It is designed to turn out 300 tons daily, or more than 100,000 tons a year, at peak production. This is about 2 percent of U.S. requirements. About 87 percent of newsprint used in this country comes from Canada.

The plant was designed, built and will be operated by the Kimberly-Clark corporation of Neenah, Wis. It is located on 710 acres which were once part of the huge Childersburg ordnance works during World War II.

Eclipses of the moon are due in 1950 on April 2 and Sept. 26.

Potato Goals Must Be Set

W. M. Tate, chairman, announces that 1950 potato goals will be set next month for Marion county.

Marion county's allotment is 261 acres this year as compared with 300 acres last year and Tate emphasizes that the job of setting fair goals this year will call for complete information from growers as to the acreage which they have grown the last three years. Anyone who wants a potato goal must contact the county PMA office, 440 North Church street by January 30.

Tate points out that in order to be eligible for potato price support, growers must have goals. Price support in 1950 will again be 60 percent of parity as it was in 1949.

Embryo Sailor Sent To Reform School

Dundee, Scotland, Jan. 19 (AP)—A 14-year-old boy who made a solo voyage of 200 miles into the North sea was sent to a reform school today on a charge of stealing the boat.

The boy, Johnny Guthrie, and the 30-ton fishing vessel Girl Joan disappeared Jan. 10 from the little coastal town of Arbroath. The trawler Reptonian picked them up three days later halfway to Norway.

Johnny's lawyer described the youth today as "a boy who dared to translate his ambition for the sea into a practical reality, foolhardy as it might have been."

He pleaded with the court to give the lad a chance for training as a sailor.

Judge K. D. Cullen said that might be possible later. Meanwhile, he pointed out, British law requires children to go to school until they are 15. He said

the length of the boy's stay in the reform school would depend on his behavior there.

5 New Polio Cases
Portland, Jan. 19 (AP)—Five new cases of poliomyelitis reported last week were listed by the state board of health today.

The board reported there were 324 cases during 1949—highest since 1943—and that 22 persons died.

Since 1824 the Army Corps of Engineers has maintained the nation's harbors and navigable rivers.

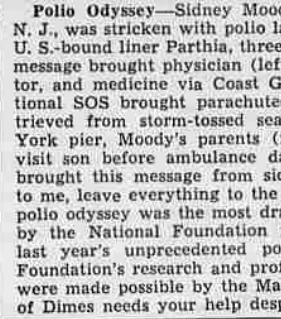

Woodworking Plants Operate

Albany, Ore., Jan. 19—About half of the local woodworking industries were still operating Wednesday but those not closed down were approaching the borderline as ice on ponds and in logs became more evident.

The Albany Lumber company plant and the two Blackwell Brothers sawmills were both closed down for the duration of the frigid period, with logs locked in frozen ponds.

Cold weather has forced closing of the Edwards Construction company's re-milling plant for the Albany Plylock, Linn Plywood and Door company, and R. Veal & Sons chair factory were still operating Wednesday.

At the Maloney & Chambers sawmill ice was broken and sawing started Wednesday but continued freezing of the pond forced closing of the plant at noon.

Polio Odyssey—Sidney Moody (center), 21, of Plainfield, N. J., was stricken with polio last August (lower left) aboard U. S. bound liner Parthia, three days out of New York. Radio message brought physician (left center, up), portable respirator, and medicine via Coast Guard plane and cutter. Additional SOS brought parachuted medicine (upper right), retrieved from storm-tossed seas by Parthia crew. At New York pier, Moody's parents (right center) boarded ship to visit son before ambulance dash to hospital (lower right), brought this message from sick boy: "If anything happens to me, leave everything to the March of Dimes." The Moody polio odyssey was the most dramatic of hundreds engaged in by the National Foundation for Infantile Paralysis during last year's unprecedented polio epidemics. All—plus the Foundation's research and professional education programs—were made possible by the March of Dimes. Now the March of Dimes needs your help desperately. Give generously.

Memorial Day Tea Planned at Dayton

Dayton—The WCTU held its regular meeting in the social room at the Baptist church, with the president, Mrs. Frank Foster, presiding.

Plans were made for the Francis E. Willard Memorial Tea, to be held at the next meeting February 9, at Mrs. Guy Remmes.

The program committee appointed by the president were: Mrs. Ralph Timm, chairman, Mrs. Roy Will and Mrs. Mariam Krake. Tea committee: Mrs. Guy Remme and Mrs. Sina Christenson. Mrs. Timm had the afternoon devotional period.

Until recently, Ford Ord, Calif., boasted the only Negro WAC detachment in the army. Now it serves as a parent organization for units being established in all sections of the country.

Smithfield District Finds Many Worries

Smithfield—The snow storms have hindered milk delivery and pickup from the farmers as well as the mail man. The telephones have been out for a part of the time and at this writing some of the telephones are still out.

Some of the people, who live off the county roads and highway, are snowed in so deep that they can't get out very well to report telephone or electric troubles.

Several people have been without electricity for days. This is a hardship on the farm as water for cattle, as well as home use, must be pumped by electricity.

The Harold Stapleton family is staying in town with friends while the electricity is out. They go home for chores twice a day. Lambing season is just about upon the sheep herds, which gives an added worry at this time.

If house plants are infected with mealy bugs, pick them off with a cotton-tipped matchstick dipped in alcohol or toilet water.

Other brands claim it...

Only S&W dares to prove it!

Your grocer has seen the famous test in which we prove the superiority of S&W Fine Foods.

We invite the grocer to select other brands—any brands—from his shelves. Then together we open each can and compare its quality with S&W, product for product, by actual taste test.

For more than 50 years, grocers who have made this actual store test have judged S&W best, every time.

See for Yourself—Try any S&W Fine Food—fruits, vegetables, juices, oven-baked beans and brown bread, or famous S&W mellow'd coffee. We are confident you will agree that S&W is in a class by itself.
