Cartainly he knew his doubts. Certainty he knew that there had to be some changes made, For years he had spent the off season in a New York hotel suite, nightly going on the town. It was a mode of living which might have had something to do with his constant spring training

troubles.

This year, after the series, Joe like a lot of other boys when they are worried, went home to

And Mama DiMaggio took it from there. She gave him the peaceful home life he had needed, the good cooking and regular meals and the solace of steady living. Joe began to play golf to strengthen his legs and the combination of rest and fresh air, instead of the draining monotony of night spots, quickly padded that scarecrow frame.

Dick Dunket's College Basketball Power Index

EXPLANATION—The Power Index provides a direct comparison of the "elative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stron, r than a 40.0 team on their comparative records, in which scoring margin has been weighed against strength of opposition. This does not necessarily mean that a 50.0 team should defeat a 40.0 team by exactly 10 points in the uture. Teams rarely follow past performance that closely. Furthermore, the ratings are not adjusted for such factors as home court, injuries and ineligibilities. The Dunkel system correlates records of all college teams and was started in 1929.
