

Demonstrating Aptitude Sandi, a sea lion, captured and trained by Capt. Homer Snow, director of the Long Beach, Calif., public zoo, executes a swan dive, one of his specialties, for a group of visitors during his daily exhibition.

Feller Rated Cinch To Enter 200-Game Class

By OSCAR FRALEY
(United Press Sports Writer)
New York, Feb. 6 (U.P.)—Bob Feller of the Cleveland Indians won "only" 15 games last season and took a \$20,000 pay cut, which leaves him making a mere \$45,000 in 1950, but even with his fast one limping a little, he still appears a cinch to enter the ranks of the 200-game winners this year.

Feller has a total of 192 victories, leaving him eight short of becoming the 54th major league pitcher to hit the 200 mark. Figuring on the price of per game pitching, he should get those eight easily. Last season his wins cost the Indians \$4,300 each. If he scored only eight triumphs this season it would figure at \$5,600 per victory... neither the dollar, nor Feller, has deteriorated that much...

One of the most popular pilots in the major leagues is Eddie Sawyer of the Phillies, and his strongest boosters are the men in his own farm system. They all back Jack Sanford, Toronto manager, when he says that the smartest move the parent club made was to bring up Sawyer to handle the young players. Eddie got a lot out of the youngsters, as his third place finish last season proved, and he

New Ski Star Is Found in World Champion Jumps

Lake Placid, N. Y., Feb. 6 (AP)—The sport of ski jumping, which enjoys a limited popularity among competitors, had a brand new star today. He is Hans Bjornstad, a 21-year-old Norwegian youngster who was mentioned only as an afterthought by the experts in forecasting the result of the world championship here yesterday.

If you'd ask about him, they'd just say: "He is a good jumper." But Bjornstad outshone them all yesterday, achieving both the best form and the best distance. It's an exceedingly rare combination for one skier to excel in both. He jumped 224 and 223 feet in his two trials on the Intervales Olympic hill and showed such perfect form that the judges gave him 18 1/2 points each, a very fine score. Bjornstad's total—on form and distance—of 220.4 points gave him a six-point margin over another rank outsider, Thure Lindgren of Sweden. The week before Bjornstad had placed only sixth and Lindgren 31st.

One of the National Basketball association's officials this year is Morrie Aronovich, ex-National League baseball slugger,

Dick Dunkel's College Basketball Power Index

EXPLANATION—The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Thus, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which scoring margin has been weighed against strength of opposition. This does not necessarily mean that a 50.0 team should defeat a 40.0 team by exactly 10 points in the future. Teams rarely follow past performance that closely. Furthermore, the ratings are not adjusted for such factors as home court, injuries and ineptibilities. The Dunkel system correlates records of all college teams and was started in 1929.

(Ratings through games of February 2)

SPORTS ROUNDUP

Tradition Comes Quick to Pros

New York, Feb. 6 (AP)—The list of "traditional rivals" Bert Bell is using to set up the 1950 National American football league schedule is: Cleveland vs. San Francisco, Green Bay vs. Washington, Philadelphia vs. Los Angeles, Bears vs. Cardinals, Bulldogs vs. Giants and Pittsburgh vs. Detroit. Apparently it doesn't take long to create a tradition in that league. Or, as Bill Veeck says, they're "those towns where you can draw some people."

While we're on the subject, there should be a heck of a "traditional" rivalry on the Pacific coast next fall between Coaches Kip Taylor of Oregon State and Forrest Evashevski of Washington State. They worked up quite a rivalry as assistants to Biggie Munn.

The Impossible Takes Longer
Mike Bowerman, Michigan State's 13-foot pole vaulter, has a habit of pausing at the head of the runway and fiddling around a while before heading for the takeoff. At practice recently a spectator asked Mike how come he took so much time. "Just trying to work up enough nerve," replied Bowerman. "At first it always looks impossible."

Touring Tennis Pros to Perform For Portlanders
Portland, Feb. 6 (AP)—Tennis professionals Jack Kramer and Pancho Gonzales play here tomorrow night in a singles match that continues their cross-country tour. There will be another singles match between Frankie Parker and Francisco Segura with Bobby Riggs and Kramer meeting Segura and Gonzales in a doubles match. The New York Athletic club had 123 athletes who scored points for the club in open competition during 1949.

Sportsmenton
Don Lofgran, the San Francisco basketball star, fouled out of a game for the first time in his career against Southern Cal. the other night and high-scoring Chet Giermak of William and Mary was charged with only 19 personal fouls in 17 games. They're just roughnecks compared to Bill Guackenbush of the Boston Bruins, who played 131 consecutive hockey games

SMOOTH AS "OCEAN-ROCKED" WHISKEY

Nationals Announce New Record Night Schedules

By FRED DOWN
(United Press Sports Writer)
New York, Feb. 6 (U.P.)—Led by the St. Louis Cardinals, who have scheduled a record 54 games at night including even their opening game, the national league today announced an unprecedented total of 205 after dark contests out of 616 on the overall schedule for the 1950 season. In the official schedule released by the league, it was revealed that the total even exceeded the American league figure of 204, also a record, in spite of the fact that one National league club, Chicago, doesn't play night ball at all. Owner Fred Saigh of the Cardinals has virtually wiped out weekday afternoon baseball in his town with only three such games scheduled, all apparently at the insistence of visiting club owners who refused to go for night games on these days when their teams leave for another city. The breakdown of 77 Cardinal home games reveals in addition to the 54 night games, one holiday double-header, 11 single Sunday games and one Sabbath double bill, just five out of 12 Saturday afternoon dates (the other seven being at night), and those three lonesome little weekday games. Those novelty occasions in St. Louis will be on April 20 with Pittsburg, on May 3 with Brooklyn and then not again until Aug. 28 also with Brooklyn. All but two other National league clubs are keeping pace with the after-dark trend. The Braves will play 37 night games, the Phillies 25, the Reds 24, and the Dodgers, 21. The Giants are holding the line against the "inflation" sticking to 14 or just two games with each visiting club while the Cubs, of course, have none at all.

Vikings Return To Big Six Play With Corvallis

The Vikings of Salem high return to Big Six league competition Tuesday night at Corvallis for their only basketball outing of the week. Coach Harold Hauk's squad, undefeated in league play, toppled the Spartans earlier in the season in a game played in Salem on January 17. The Viks go into the Tuesday night game with a record of six victories in loop play.

SHERIDAN LOSES TO AMITY HIGH CAGERS

Amity—Sheridan high school's cage team was turned back Friday night at Amity by a score of 38-18.

Meet Frances Buss— Another Do-it-Yourself American!

Behind the television cameras she found a full-time career

New frontiers of opportunity are still wide open in America...for folks with ideas, ambition, and drive. And there are plenty of people on every Main Street who are making this "Do-It-Yourself Spirit" pay off! They don't go for spoon-fed security. They'd rather make their own, on their own. Take the example of Frances Buss, who hails from St. Louis, Missouri... Watch her work behind the television cameras, and you'd never know that Frances Buss had been the studio's receptionist a few years ago! But Fran planned it that way. In 1941 she decided to stake her future on learning the television business, growing with it. She got a foot in the door as a receptionist, then volunteered to tackle any job, on stage or off. From signpainting to script-writing... it all pointed toward Fran's goal. She even learned camera technics on the side. Five years ago she won her chance to run her own show. It clicked! And today she's the only woman director-producer on CBS-TV! "There are plenty of new frontiers for women today," says Fran, "but you have to set your goal, and stick at it, on your own!" And that's how to make the best security for the future, too. You'll find most folks in America today have Fran's "Do-It-Yourself Spirit." One proof is that 80 million Americans—4 out of 5 families—voluntarily take care of their own futures through life insurance. And because life insurance is used by so many, the life insurance business has naturally grown in size. Yet life insurance serves at an intimate, personal level. Trained agents bring their help to families on every Main Street. To do this, there are 150,000 trained agents, representing 584 individual, competing companies helping American families help themselves.

A director-producer at 32!
Watch her work behind the television cameras, and you'd never know that Frances Buss had been the studio's receptionist a few years ago! But Fran planned it that way.
