

One Dead in Train Derailment—Derailed cars of the Milwaukee railroad's crack train, the Chippewa Hiawatha, are returned to the tracks near Saukville, Wis., where the train hit a broken rail and overturned. One man was killed and 64 persons were injured in the accident. Authorities said it was "miraculous" that the death toll was not higher. (Acme Telephoto)

Dallas Sewage Bond Issue May Be on Ballot in May

Dallas, Feb. 7.—It is quite probable that Dallas voters will be faced with the matter of a bond issue in the neighborhood of \$50,000 at the May primary election, according to Mayor Hollis Smith.

The state sanitary authority has given the city final notice to construct a sewage disposal plant which must be in operation by the end of 1951.

Several years ago the city voted a \$150,000 bond issue for the plant and storm sewers. Storm sewers required the sale of \$42,000 in bonds, leaving only \$108,000 in unsold bonds for the plant which it is now estimated, will cost between \$150,000 and \$175,000.

The storm sewers were installed several years ago, but the sewage plant was not constructed at the time of the original issue because of a shortage of materials.

The original proposition called for revenue bonds and a fee system was set up whereby each water user pays a sum each month for the sewage fund.

Revenue bonds are no longer considered the most desirable type, however, and it is probable that the proposition presented to voters in the primary would call for general obligation bonds with a revenue feature. Such bonds do not carry as high a rate of interest and are also more readily sold.

Apparently the city has no alternative but to construct the plant because the sanitary authority is vested with the power to enforce the law on the matter. Failure of the voters to approve the issue would only result in legal action and more expense to the city and yet the plant construction would remain a necessity, Mayor Smith states.

The present sewage disposal plant is completely inadequate, city leaders admit. It was constructed for use by a population of 1,500 to 2,000 people and is serving between 5,000 and 6,000.

Raw sewage flows through it

U.S. Employment Hits 4,480,000

Washington, Feb. 7 (AP)—Unemployment rose to a postwar high of 4,480,000 persons in mid-January, the census bureau said today.

The bureau said 56,947,000 persons had jobs on Jan. 14 compared with 58,556,000 a month earlier.

Secretary of Commerce Charles Sawyer said the sizeable increase is to be expected between December and January because of "seasonal developments."

He called it "noteworthy that industrial employment did not appear to be materially affected."

Sawyer noted that a year ago unemployment increased substantially between December and January.

Couple Has 5th Set of Twins

Denison, Tex., Feb. 7 (AP)—Mrs. Henry White of Durante, Okla., has run out of names and Mr. White stopped passing out cigars long ago.

They've just had twins for the fifth time.

That makes 19 children for the Whites. Sixteen of them are living. The first twins arrived in 1932, the second in 1938, the third in 1947 and the fourth in 1949.

Two sets were girls and the other three were mixed.

Mrs. White, 41 said, "I've run out of names and anyway, my sister-in-law promised to name them this time."

Her husband had no comment on the twins. Asked if he was going to pass out the cigars he said:

"Nope, I quit that a long time ago."

No Action Seen on Air Force Academy

Washington, Feb. 7 (AP)—It appeared today that the airforce will have to wait at least another year before congress decides to establish an air force academy.

A congressional election year is the chief reason. Bids for the school have been submitted by 195 communities in 34 states.

Some members of congress, who asked to remain anonymous, said they do not want "this additional pressure" from back home while campaigning for re-election.

Chairman Carl Vinson, (D., Ga.) of the house armed services committee promised to hold hearings on the issue. But he said no actual legislation will be considered until a defense department selection board inspects all 195 sites.

The board, headed by Gen. Carl Spaatz, retired former air force chief of staff, has inspected 43 sites to date.

32 Years Later

Waldron, Mich., Feb. 7 (AP)—Ray A. Farnham is proudly wearing the medal he just received for gallantry in action.

Farnham won the decoration after a campaign at Jucignon, France, Aug. 29, 1918.

and into LaCreole creek, creating an especially bad situation in periods of low water for those whose property fronts on the creek.

The Way to Perfect Health

That health is always the natural condition of man is made wholly clear in the Christian Science textbook, "Science and Health With Key to the Scriptures" by Mary Baker Eddy.

Through the thoughtful reading of this book, which contains the complete explanation of Christian Science, thousands have been completely and permanently healed of every manner of disease.

Science and Health, together with the Bible and other authorized Christian Science literature, may be read, borrowed, or purchased at
