A baby fur seal was rescued on the beach at Pacific City by Mr. and Mrs. Dan Tompkins of Dayton, and is now at their home on Grand Island. The seal, 28 inches long and weighing 18 pounds, had been washed onto the beach and was almost dead from hunger when found by the Tompkins. They fed it and will keep it until taken over by the state game commission. It is full of life now and considerably on the fight. Donald Tompkins is holding the seal.

Stocks Advance Wiley Creek and Fractionally Cascadia Out

New York, Feb. 18 (P)—Rail-road issues took over leadership of a rising stock market today for the second day running. Gains were fractional for the most part but will spread through major groups. Heavy trading accompanied the rise, with turnover for the two-hour session in the neigh borhood of 1,000,000 shares. Yesterday railroad stocks sparked one of the largest over-all market gains of the year. De-mand was based largely on hopes

mand was based largely on hopes for quick settlement of the coal strike. Buying persisted today despite the latest word that negotiations for a new coal contract had made for resumption of coal output, however, was seen in the second

To resumption of coal output, however, was seen in the second message sent by John L. Lewis to the coal miners telling them to go back to work. The first message was ignored. Corporate bonds moved nar-rowly. A A A D M A

ages be considered from the standpoint of a total basin.

MARKET "It is estimated that the aver QUOTATIONS "It is estimated that the aver-age annual damage is in excess of \$800,000." the communication stated. "The three dams Green Peter, Cascadia and Wiley Creck, will give approximately 85 percent protection to the low-er valley, but the Green Peter, if the only one, would only give about 50 percent protection. DRINK YOUR WAY FROM BALDNESS?

Another new and surprising post-war discovery indicates that certain substances taken internally will stimulate the growth of hair on the scalp. SAMSONADE, previously sold merely as a wholesome appetizer, contains these substances and has produced a sharp increase in hair growth in approximately 80% of its recent users.

This is one more instance of the widespread gains in medical and biological knowledge in the last few years. The re-search on which this discovery is based was only completed in December, 1949. It is strictly new, and in line with the principle that hair growth depends mainly on internal body chemistry

Will you risk one dollar to find out if you are one of the fortunate 80%?

As this is far below the regular price, we must limit the offer to this month (orders mailed before March 1) and to those who use the order blank below.

BASIC REMEDIES 140 N. Echols St. Monmouth, Oregon

Send me immediately, postpaid, one 12-ounce bottle of SAMSONADE. Enclosed is one dollar (\$1), full payment for this introductory offer.
