HERE IS RELIEF

By Order of the Common Council February 27, 1950.

26,000 Oregon **Boys and Girls** Note 4-H Week

More than 26,000 Oregon 4-H club members are joining the nation this week in celebrating National 4-H club week, according to L. J. Allen, state 4-H club

Oregon club members last year participated in 35,488 projects. They completed 81 percent of them. This percentage compares favorably with the 1948 club year when 77 percent of the projects were carried through to completion.

The project total also shows a gain compared with the 1948 club year when slightly more than 31,000 were carried by youngsters enrolled.

The Oregon club program also reached a new all-time high in 1949 in terms of club numbers. There were 3206 clubs in 1949 as compared with 2675 for the year preceding The club year runs from November 1 through to October 31 the following year.

leaders who give their and "know-how" in instructing their youthful charges. The leaders conduct club meetings and provide inspiration and leadership Allen said Oregon is one of the leading 4-H club states in terms of enrollment as com-pared to the number of eligible rural youngsters. He es-timates that 16,000 of the 63,000 Oregon rural homes are

members.
Club work, however, is not restricted to rural youth. The 4-H program has been active within the city of Portland for more than 25 years, and during the past year a full time county extension agent has been employed to foster club work in At the present time, there are approximately 2,000,000 4-H club members in the United

represented by 4-H club

States. During the 35 years that the 4-H club program has been carried on as a work of the U.S. department of agriculture, more than 14,000,000 club boys and girls have participated. Gas Almost Choked Him
