26 Enter Race For Legislature In Marion Area

7 GOP, 2 Demos for Senate; 12 GOP, 5 Demos for House

By JAMES D. OLSON

Twenty-six candidates are in the race for the legislature in Marion county, of which 12 republicans and five democrats seek nomination for the four house seats and nine running for two senate seats, seven republicans and two democrats.

Filing by candidates for the May 19th primary election was closed promptly at 5 p. m. Friday night by Dave O'Hara, election registrar. It is possible that a few additional filings, posted in the mail prior to 5 p. m. Friday may reach O'Hara's office Saturday but it is not believed that any candidates in Marion county utilized the mail.

The republican candidates for the two Marion county senate seats include Sen. Fred Lamport, Reps. W. W. Chadwick, Douglas R. Yeater and Frank R. Doerfler; Steve Anderson and K. G. Thompson, all of Salem, and Richard L. Ryman of Gervais.

The two democrats who filed for the senate seats are Arthur L. Davis of Salem and Frank Porter of Silverton.

Republicans filing for the four Marion county house seats include Rep. John F. Steelhammer, H. R. (Farmer) Jones, Lee V. Ohmart, Roy L. Houck, B. E. (Kelly) Owens, George E. Emigh, Jr., E. E. Boring, Richard G. Severin, Ivan G. Martin, Mark Hatfield and Gene Maletki, all of Salem and Lloyd Girod of Idanha.

The five democrats seeking nomination for the house are Lawrence J. Koch, St. Paul; Josephine A. Spaulding, Ward Graham, Alvin J. Whitlaw and Preston W. Hale, all of Salem. (Concluded on Page 3, Column 1)

3 Democrats On Ballot for County Offices

Vistica and Burk for Commissioner, Heyden For Recorder

By CHRIS KOWITZ, JR.

Alfred J. Zielinski and Andy C. Burk, as expected, filed their declarations of candidacy for republican and democratic nomination, respectively, for the office of Marion county commissioner. The filings were made late Friday, the final day of filings.

Zielinski will oppose incumbent Commissioner E. L. Rogers on the republican ticket in the May primaries. Burk, ex-shepherd of Marion county, will be running on the democratic ticket against Anton M. Vistica, who filed earlier this week.

Surprise Filing

A surprise last-day filing for county office was that made by Henry A. Heyden, 2175 South 19th, for the democratic nomination as county recorder. Heyden will be the lone democrat seeking this office. On the republican ticket will be Herman Lanke, current recorder.

One commissioner and recorder are the only major Marion county positions to be filled in the 1950 elections.

Zielinski of Silverton, is a native of Marion county. He was born in Salem 35 years ago, and was educated in the Salem public schools. He resides in the Howell Prairie district west of Silverton. A World War II veteran, he served with the 51st field artillery battalion, the 603rd tank destroyer battalion and the 91st infantry division.

Zielinski is a descendant of the original five Zielinski brothers who settled in Marion county in what is now Hazel Green district. (Concluded on Page 5, Column 7)

Sander Sure Of Registration

Confident the state board of registration in medicine will permit him to resume practice.

Candia, N. H., March 11 (AP)—Dr. Hermann N. Sander is confident the state board of registration in medicine will permit him to resume practice. The handsome young doctor, acquitted of murder in the death of a cancer-plagued patient, said last night he felt sure the board will allow him to return to his patients "after calm, cool deliberation."

Dr. Sander made the statement shortly before he and his wife left on "a southern trip." They would not disclose their destination.

A representative of the state board, who talked with the doctor before he left, said the group may not hold a formal hearing on suspension or revocation of Dr. Sander's license for several weeks.

Members of the board will meet at the state house Monday to set the date.

The board is expected to give particular attention to Dr. Sander's court testimony that he inserted, or attempted to insert, an air-filled needle into a vein in the arm of Mrs. Abbie C. Borroto, his patient.

The state charged that the air injection caused Mrs. Borroto's death. Medical testimony was offered by the defense, however, that the vein had collapsed and that an air injection was impossible.

The 31 members of the house of delegates of the New Hampshire Medical society will meet in Concord tomorrow to discuss the case.

Hoover Opposed to National Police Force

FBI Director J. Edgar Hoover said today he is "unequivocally opposed" to any national police force in this country.

"The old world implications in the very words are abhorrent to me as an American," Hoover said.

The FBI chief expressed his views in a signed editorial in the March issue of the bureau's law enforcement bulletin, which is circulated among law enforcement officers.

Cold Wave Hits All Northwest

A mass of Polar air that swept down from the Arctic crashed hopes for an early spring over most of the Pacific northwest last night and brought Spokane its coldest March 11 in 68 years today. It was 7 above there.

There were five inches of snow on the ground in the inland empire and about the only thing that looked like spring was the bright sun that rose in a cloudless sky today.

Oregon escaped the worst cold. The lowest reading was at Klamath Falls, with 12 above. Lakeview had 16, and Bend 17. Most other readings were in the 20s and 30s.

A scattering of snow was reported over the state. Klamath Falls was blanketed in snow, a little less than an inch. There were patches on Portland's hills.

The weather bureau predicted colder weather in all of Oregon tonight—down to 10 in some parts of eastern Oregon, and down to 25 in western Oregon. It was 27 above in Salem Saturday.

270 Declarations Of Candidacy Filed

The largest number of filings to ever be received in Marion county at one time hit the county clerk's office Friday afternoon, when over 250 declarations of candidacy for democratic precinct committeemen and committeewomen came over the counter wrapped in a rubber band.

Many of the filings were for precincts in which there has not been democratic committeemen or committeewomen previously.

Also filing on the final day were about 25 republican candidates for precinct committeemen and committeewomen.

Swiping of Stalin's Picture Causes Strike

Trieste, Free Territory, Mar. 11 (AP)—Pro-communist dockworkers struck for an hour here yesterday. Someone had made off with their lifeline picture of Marshal Stalin down by the waterfront.

Soon afterward, two American merchant sailors showed up aboard their ship, the African Glade, with the picture in tow.

Public Hearing Monday On Capitol Re-zoning

By STEPHEN A. STONE

A public hearing on the question of re-zoning the southeast corner of North Capitol and Center street to permit the erection of a high class service station will be the center of interest at the city council meeting Monday night.

George A. Rhoten and Sam F. Speerstra, owners of the property and the petitioners, have supporting them the city planning and zoning commission, which has recommended the change to the city council.

Against them they have the state capitol planning commission and the Salem long-range planning commission.

What the city council, which has the final say, will do about it is the issue Monday night. The ordinance bill was introduced two weeks ago and is on the calendar for third reading and final action.

It is known that Rhoten will be present to take part in the debate, also that the state commission and the long-range commission will be represented. Other speakers are expected.

The question is controversial because the property is on the fringe of the capitol zone where the state commission wants a ban on commercial enterprises.

Another public hearing Monday night will be on the question of 40-foot-set-back lines from the center line of Portland road (Highway 99E) from Lana avenue to the north city limit. The set-back is requested by the state highway department.

Whether the two daylight saving ordinance bills will be introduced Monday night is a question. One would make daylight saving time automatic every year, the other would set the dates for it this year. The bills were prepared prior to the last February meeting of the council, but were not introduced. They are strongly opposed by various organizations.

Among bills for third reading is one giving the South Salem Friends church authority to erect a neon sign that was presented the church.

A bill restricting fireworks may be introduced. On the agenda will be a large number of sidewalk resolutions for new walks in Rosedale annex, North Salem, Cardwell, Highland avenue and Kay's Second additions.

Molalla Sawmill Worker Dies in Flames

Oregon City, March 11 (AP)—Reuben Robert Hildebrandt, 45-year-old sawmill worker who was married only three weeks ago, burned to death last night in his cabin near a sawmill five miles from Molalla.

It was Clackamas county's ninth fire fatality in three days. A family of eight perished at a sawmill camp near Sandy Wednesday.

The mill owner, George Lind-say, saw the blaze and tried to rescue Hildebrandt, but was unable to brave the flames. Coroner Ray Rillance said Hildebrandt apparently fell asleep while smoking.

Hildebrandt's wife, a Canadian, had left just yesterday for New Westminster, B.C., to obtain papers for permanent re-entry into this country. Her maiden name was not available.

Pope Pius Calls Prayer Crusade To Urge Peace

Says Armament Race Leaves Souls of All Fearful

Vatican City, March 11 (AP)—Pope Pius XII declared in a worldwide encyclical today the armaments race leaves "the souls of all fearful and suspended."

He called for a "crusade of prayer" on Passion Sunday, March 26, to invoke of God "opportune remedies to prevent evils."

Although war has ceased almost everywhere, nevertheless desired peace, a solid and stable peace that could happily resolve the many and always increasing motives of discord, has not arrived. Many nations place obstacles in each others path and as trust fades there is a race to re-arm leaving the souls of all fearful and suspended."

Uplifted by Pilgrims

The pope said the sight of Pilgrims flowing to Rome for holy year "has sweetly uplifted us." Nevertheless, he added "reasons of distress and anxiety are not lacking which sadden our paternal spirit."

The pontiff said the "root of all evil" was that "not infrequently truth is replaced by falsehood which is used as an instrument of dispute."

Without mentioning them by name, the pope clearly lashed out against communist countries, which he said were "not few," and where "the rights of God, of the church and of human nature itself is being offended and down-trodden."

Asks McCarthy For Proof of Red Infiltration

Washington, March 11 (AP)—Deputy Undersecretary of State John E. Peurifoy challenged Senator McCarthy (R, Wis.), in effect today to put up or shut up on all his charges of communist infiltration in the state department.

"This is much too important to the country and its foreign policy to be left to innuendo," Peurifoy said in a statement issued at the department.

He implied that reliance on innuendo is back of McCarthy's announced plan to build his evidence against the state department on a few "thoroughly documented" cases instead of trying to present complete details on all the cases of alleged disloyalty which the senator has mentioned.

Fuchs Passed on All A-Secrets

Washington, March 11 (AP)—Dr. Klaus Fuchs, confessed Russian spy, may have stripped the United States' scientific cupboard bare of all but its latest atomic secrets.

Further, it is considered likely among those familiar with the situation that he could have passed on to the Soviets highly "educated guesses," to say the least, about the rate of U.S. A-bomb production and the size of this country's stockpile.

Both are closely guarded secrets. So is all data connected with development of the potentially more deadly hydrogen bomb. Fuchs was familiar with the theory of the H-bomb, too.

Members of the senate-house atomic energy committee who saw the Fuchs' confession for the first time yesterday took a grave view of the matter, Senator McMahon (D-Conn), committee chairman, declined to say what was in it or answer questions about it.

The confession, passed on by the British, reached the federal committee through the federal bureau of investigation and the atomic energy commission. AEC officials met with the committee behind closed doors to go over the document.

Black Market in Germany Booming

Bonn, Germany, March 11 (AP)—More than half of all the coffee West Germany drinks and 25 percent of the cigarettes it smokes are smuggled into the country by black marketers.

This claim was made today in a motion to the German parliament (bundesstag). It claims only a small amount of the smuggled goods could be confiscated "because many of the black marketers are foreigners" who cannot be brought before German courts.

Lookout Dam Contract

Portland, March 11 (AP)—The army engineers will invite bids about March 16 for constructing a railroad detour and a section of the permanent Southern Pacific railroad in the Lookout Point dam area. The project begins 11 miles upstream from Lowell, and extends for 1 1/2 miles.

Gubitchev to Accept Deportation Offer

New York, March 11 (AP)—Valentine A. Gubitchev, convicted as a Soviet spy, reportedly will accept the U. S. government's offer of release from a 15-year prison term on the condition that he go home to Russia.

The government had told the 33-year-old engineer that he could pick his own penalty for conspiracy and attempted espionage against the United States.

He could get out, and stay out, or he could go to prison for 15 years.

It was reported that Gubitchev plans to leave the United States March 20 aboard the Polish liner Batory—the same ship on which communist fugitive Gearhart Eisler fled this country as a stowaway last May.

Both the New York Times and the New York Herald Tribune said they had learned of Gubitchev's decision.

The reported sailing date is four days ahead of the deadline set by Federal Judge Sylvester Ryan Thursday when he meted out sentences of 15 years each to Gubitchev and his co-spy, 28-year-old Judith Coplon.

Airplane Strike Called Off on American Lines

Ground Crews Return Monday, Win Security Lose Wage Raise

New York, March 11 (AP)—The CIO Transport Workers union today called off a nationwide strike of ground crewmen against American Airlines.

TWU President Michael J. Quill, in announcing the action, said the line's 4600 striking employees would begin reporting to work at 7 a. m. (EST) tomorrow. The 11-day-old walkout had crippled about 80 percent of the line's normal operations.

Quill said that at meetings of TWU locals throughout the country today 3100 members had voted to accept a proposal that led to the termination of the walkout. With still some locals to be heard from, 300 had voted to remain on strike, Quill said.

Country Wide Meetings

The ground crewmen struck in a demand for improved job security and working conditions. The country wide meetings had been called by the union to hear what a spokesman termed a "report on important developments" resulting from efforts of federal mediators to settle the dispute.

William Grogan, TWU's international vice president, said the company had agreed to the union's job security demands. It also agreed in writing that no sub-contracts would be let for maintenance work which company employees could perform, Grogan said.

The union's demands for wage increases were dropped during the course of the bargaining, the union official said. It had sought a 20-cent hourly increase to present scales ranging from \$1.02 to \$2.14 for various job classifications.

Chiang's Forces Report Victories

Taipei, Formosa, March 11 (AP)—The Chinese nationalists today reported fresh air blows in support of their invasion-threatened Chushan islands and new guerrilla successes on the western mainland.

Air headquarters announced that Mitchell bombers and Mustang fighters yesterday attacked shipping around the communist-held islands of the Chushan archipelago 100 miles southeast of Shanghai. Three big junks and numerous small craft were reported sunk.

The communists have captured a few minor islands in the Chusan group. The principal ones are held by the nationalists. They use them as a base for their blockade of the Red China coast.

Nationalist guerrillas were reported to have recaptured Luting and Tanga in Sikang province, which borders Tibet, and Chingchau in Szechwan province to the east of Sikang.

The nationalists asserted Wednesday their guerrillas had retaken Kangting, capital of Sikang, on March 5. Luting is 20 miles southeast of Kangting, Tanga 65 miles north. (Chingchau is not shown on detail maps.)

Guerrillas credited with the reported new successes in China's far west are remnants of nationalist armies which made their way into Sikang when resistance crumbled last December and Chengtu fell. Chengtu, last nationalist capital on the mainland, is in Szechwan 120 miles northeast of Kangting.

House Near Gates Burns to Ground

Gates, March 11 — A house owned by Tony Baker, east of Gates, and occupied by the Davises family, man and wife and five children, was destroyed by fire about 11 a. m. Saturday.

The fire was discovered by M. J. Thomas, a neighbor, who called assistance. The family was not endangered, but contents could not be saved. The family dog is believed to have perished in the fire.

An overheated flue is believed to have caused the fire. The Gates fire department was called, but the flames were too far along to be stopped.
