

### Four Corners Youths Will Go to Portland Saturday

Four Corners, Mar. 16—Along with the first days of spring comes the basketball season, as well as many other social and pre-Easter events. The sixth grade Gra-Y boys of Lincoln school (Four Corners) and their teacher, Boyd Hillesland, are planning to go to Portland Saturday for a day of sightseeing and ball games.

In the morning they will visit the zoo and in the afternoon they will play basketball with the Northeast YMCA Gra-Y basketball team. Boys planning to go are Richard Lukens, Craig Scott, Robert Kipper, Kenneth McClain, Gordon Harrison, Jerry Gilming, John Zimmerman, Berl Davis, Vernon Vogt, Otha Rouse, Henry Mauk, Gary Pierpoint, Dewey France, Darrell Rickman, Gary Barker, Gerald Bayse.

National Campaign Chairman — Charles Edward Wilson, president of the General Electric company, who has been named national campaign chairman for the Community Chest for 1950.

### Wilson Heads National Chest

Heading the National Community Chest of America drive for 1950 will be Charles Edward Wilson, president of the General Electric company since 1940.

Wilson's acceptance of the appointment as national campaign chairman was announced this week by Stanley C. Allyn, recently elected president of Community Chests and Councils of America, Inc., and president of the National Cash Register company.

Wilson succeeds Henry Ford II, who served as campaign chairman in 1948 and 1949.

Previous public service activities of Wilson include co-chairman of the National Conference of Christians and Jews and chairman of the president's civil rights committee. In 1942, President Roosevelt appointed Wilson as executive vice chairman of the war production board, chairman of the war production executive committee, and head of the military labor-management panel, the national security resources board and the committee on universal military training.

The nation's Red Feather drives which combine many health and welfare fund appeals in unified local campaigns will again this year be concentrated in October. Community Chests are now raising approximately \$185,000,000 annually for support of more than 14,000 Red Feather services.

### Fruit Growers May Get Federal Aid

Portland, March 16 (AP)—Oregon and Washington fruit growers whose trees were damaged by harsh winter weather may get federal aid.

The department of agriculture office here reported the government could grant some financial help to growers whose crops come under "production disaster" rules.

The Washington state council of the federal department already has so classified freeze damage to Washington soft fruit orchards. The Oregon council has not yet made a final decision.

Americans ate an average of 80 pounds of beef, 70 pounds of pork and six of lamb and mutton in 1948.

### Stassen Urges Policy Change

St. Louis, March 16 (AP)—Harold E. Stassen says Americans must take up offensive strategy in the cold war.

He declared last night that the United States, with a "defensive" foreign policy, is steadily losing ground to spreading communism.

The former republican governor of Minnesota spoke before the John Marshall club, an organization of St. Louis republican lawyers.

Stassen, now the president of the University of Pennsylvania, called for a presidential meeting with leaders of the republican party and directors of the administration's foreign policy. He also called for a conference of world leaders—including Joseph Stalin.

"It is high time they (the American people) insist on a change in those policies and practices of their government which have contributed toward this tragic loss in the cold war," Stassen said.

"The major reason for the loss has been a national policy of waging the cold war on a defensive basis.

"Official statements have been full of holding a line, of containment, of defense, of waiting for the dust to settle."

Specifically, Stassen suggested that President Truman call in Senator Vandenburg (R-Mich.), Senator Taft (R-Ohio), Senator Lodge (R-Mass.), Gen. Dwight D. Eisenhower, former President Herbert Hoover and Gen. William Donovan.

Also at the conference, he said, should be Secretary of

Shaker Show—Mrs. John Hopkins of Atlanta, Ga., holds salt and pepper shakers from Germany and Okinawa, part of her seven-year collection from 48 states and foreign countries.

State Acheson, Secretary of Defense Johnson and Senator Connally (D-Tex.), chairman of the senate foreign relations committee.

"These men could begin to develop the affirmative, dramatic moves which would strengthen the hand of America in world affairs," Stassen added.

Mrs. Owens Hostess

Gervais—The Women's Firemen's auxiliary held its March meeting with Mrs. Cecil Omens with nine members attending. The auxiliary plan to sponsor a chicken dinner and fun festival for Sunday May 7. The April meeting will be with Mrs. Bruce Barner.

### Plane His Snack Bar, Injures 15 Persons

Las Vegas, Mar. 16 (AP)—A P-51 Mustang smashed into a snack bar at the Las Vegas air base while attempting a landing Wednesday and 15 persons were injured.

Air Force officials said no one was killed but 10 of the 15 injured, including the pilot, were in serious condition. The Air Force said no names were available immediately.

The plane tore a big hole in the side of the snack bar in which "many" air base person-

### Fly to Factory, Get New Auto

Increased numbers of motorists are expected to avail themselves of a "Fly to the Factory" plan in obtaining delivery of new cars this spring and summer, according to B. B. Gragg, director of sales for United Air Lines.

"Response to the plan last spring was strong, even though some manufacturers had not yet given the go-ahead to plant delivery," Gragg reported. "This year, with factory pick-ups permitted by all leading automobile makers, we expect a decided upsurge in air travel to Detroit and other production centers."

The "Fly to the Factory" plan, Gragg explained, enables purchasers of new cars to make an air trip and motor tour vacation at no additional cost beyond the fixed price of the car. Briefly, the plan works like this:

A prospective car owner in New York, Los Angeles, San Francisco, Portland, Seattle or any inland point remote from the auto plant, makes his purchase from a local dealer. The dealer settles financial details and arranges for factory delivery. Money saved on freight and handling charges then is used for air transportation to the factory, plus travel expenses in driving the new car back home.

A large pecan tree can bear 100 to 300 pounds of nuts.

nel were eating, according to an Air Force spokesman. The pilot was trapped inside the plane and had to be cut out, but there was no fire.
