Handy and Easy Are Both Wrong

Handy Peterson and Easy Roberts got in quite an argument the other day over at Fred's Garage talking about the best spot to fish up at Green Lake.

"Opposite the old sawmill is the best spot," says Handy. But Easy "pooh-pooh's" him. "I've seen the biggest fish caught off Cedar Point," says Easy. "I've been catching them there for years."

Then Fred goes into his office and brings out the biggest mounted rainbow trout you ever saw. "Bet that was caught at the sawmill," comments Handy. "Cedar Point,"

says Easy. "Well," says Fred, "you're both wrong. I caught this baby right out in the middle!"
From where I sit, there are always two (or more) sides to every story. Let's live and let live in the true American tradition of toleration. Your opinion is worth a lot, but so is the other fellow's—whether it's on politics, the best fishing spots, or whether he likes a temperate glass of beer and you like buttermilk.

Radio Industry Gets Warning

Norman, Okla., March 16 (AP)—The radio industry has been warned it faces federal restrictions unless a curb is placed on radio horror programs and the "poor taste in jokes of its comedians."

Wayne Coy, chairman of the federal communications commission, told the closing session of the annual Oklahoma University Radio conference yesterday that unless radio does a "house cleaning by itself, restrictions will result."

He added: "Clearly there must be a day of reckoning. The commission rightly is prohibited from censorship. On the other hand it is required to see that stations operate in the public interest."

"Poor taste is not in the public interest."

Coy described some jokes heard over radio as a "return to lively stable humor."

The commission chairman also explained that federal "freezing" of licenses for new television stations was ordered to await developments of color TV sets and leave room for new color stations.

He reported that the TV field has been widened greatly by the
