

Never Too Old—Mrs. George T. Harmon, 59, Wichita, Kan., who surprised her 61-year-old husband with a baby boy says it was "all in knowing how." George Glenn, three weeks old (above with parents) weighed 7½ pounds and measured 18 inches at birth. Mrs. Harmon was attended at birth by one of her four daughters but got up the next morning as she said, "I just didn't have time to stay in bed." (Acme Telephoto)

Peppermint Crop to Drop

Corvallis, June 21 (AP)—Oregon's peppermint growers will harvest their crop from 14,000 acres this year, down 500 from 1949.

The early June condition report from the Oregon State college extension service said the outlook was not quite up to standard. Cold weather slowed early growth, weeds required considerable hoeing and there was some rust in stands along lower Columbia river dikes.

In the four big mint-producing states total acreage for both peppermint and spearmint is 59,500—down 5 percent from a year ago. Although Washington state growers boosted their acreage 9 percent, this was more than offset by drops of 10 percent in Indiana, 3 percent in Oregon and 1 percent in Michigan. However, the acreage in the four is 21 percent over the 1939-48 average.

Three-fourths of the U.S. mint acreage is in peppermint and one-fourth in spearmint. The biggest drop in acreage this year was in spearmint, the report said.

Quini's Mother Won't Talk of Expectancy

Callander, Ont., June 21 (AP)—Dr. Joseph Joyal, physician for Mrs. Ovila Dionne, mother of the famed quintuplets, refused today to confirm or deny reports that she soon will give birth again.

Reports persisted in this small community, however, that recent x-rays showed signs of a new multiple birth by the mother of the most famous children in the world.

Mrs. Dionne, now 42, has had 13 children, including the quintuplets.

'Dapper Don,' Famed Crook, Dies in Prison

Attica, N.Y., June 21 (AP)—"Dapper Don Collins," a suave international crook in prohibition days, goes to a prison grave today—unless someone from his

Liquor Clubs Worry Board

Portland, June 21 (AP)—Oregon's liquor control law doesn't work so well now that the state is growing, a liquor control commissioner asserted here yesterday.

William S. Spangler, Klamath Falls, told the commission that the regulations on clubs actually were discriminating against large numbers of people now.

His remarks followed commission hesitancy to give a club license to the McNary Recreation association, a group of McNary dam workers, because it has not

been in existence two years, as required by law.

Commissioner Richard W. Reed, Eugene, said repeal of the two-year provision might hurt rather than help. Chairman Carl W. Hogg, Salem, added that the commission was against encouraging clubs organized "just so the members could drink together."

Spangler said he didn't believe it "too difficult to determine a legitimate club."

Soviet Harvest Begins

Moscow, June 21 (AP)—The Soviet grain harvest, which some experts predict will be one of the biggest ever, has commenced.

The first day's harvest in such southern sections as the rich Kuban region, with its many large state and collective farms, was reported in dispatches today.

Mrs. FDR Meets 40 Roosevelts

Oud Vosmeer, The Netherlands, June 21 (AP)—A glass goblet with the Roosevelt coat of arms, a doll in Zeeland farm costume, and wooden shoes are gifts Mrs. Franklin D. Roosevelt takes back with her from a visit yesterday to a family ancestral home.

She also shook hands in the town hall here with 40 Roosevelts—the captain of a ferry boat, farm hands, fishermen and maids. She told them she hoped that the family relationships can be traced more exactly some day. Accompanied by her son Elliott and his two children, she

visited the spot where the first Roosevelts left for the U.S. some 300 years ago.

Mrs. Catherine Jekel, wife of the local doctor, and her daughters showed Mrs. Roosevelt through the 200-year-old house built on what was once the Roosevelt farm.

S.F. Chinatown Opium Den Raided by Cops

San Francisco, Calif., June 21 (AP)—Chinatown police raided an opium den yesterday which had escaped detection by eradicating the tell-tale smell of the drug.

Inside they found an elaborate "smell-eradicator" outfit consisting of flit guns to disguise the odor, airwick bottles to

absorb it, and adhesive tape over the windows
