

U. S. Newsmen Missing in War

U. S. Eighth Army Headquarters in Korea, Aug. 1 (AP)—Associated Press Correspondent William R. Moore has not been heard from since Sunday afternoon when he went to the Chinju battle front.

He last was reported with an element of the 24th division that was split in two by the Red drive. The unit fled Monday morning from Chinju.

Moore left for the Chinju front, on the southernmost flank, Sunday afternoon by jeep.

Moore, 40, was born at Nowata, Okla., and worked on the Daily Oklahoman at Oklahoma City. He joined the Associated Press at Denver in 1937, served in the army from 1942 to 1946, and rejoined the Associated Press in New York.

Moore had served as a major with the U. S. army of occupation in Korea. He returned there as Associated Press correspondent in April, 1948. When the war broke out, he was on his way back to Korea from vacation.

Moore has filed a notable series of dispatches from the front. Nine other newsmen have been reported captured, missing or killed in the Korea war.

80 in Marion Called for Draft

Notification to report for pre-induction physicals will be received by 80 men in Marion county for the county's first draft call.

These men will be ordered to report for their physicals on two days, August 21 and 22, with 40 leaving Salem by bus the first day and the same number slated to go the following day. Physicals are given in Portland.

The county's initial draft call is for 11 men and these are expected to be sworn in about three weeks after passing their physical examinations. The first men called will be in the oldest age group.

In getting its list of 80 men the draft board started from the top age group and worked downward. A dip will probably have to be made into the 22-year-old age group as the top age bracket has only 11 or 12 eligible men.

All of the men in the group will be single, unless they have been married since the outbreak of hostilities and that will not serve as an exemption.

In Portland the Oregon selective service director, Maj. Gen. Thomas E. Rilea said that the Oregon draft quota for October would be 453 men, one more than the September quota.

The general reported state boards speeding up their work and estimated that about 50 percent of the September quota would be en route to induction centers by August 30.

Public Invited to Detroit Dam Pouring

An invitation to all citizens of the Willamette valley to attend ceremonies incident to the first pouring of concrete at Detroit dam Saturday at 2 p.m. was extended Tuesday by Ivan Oakes, secretary of the Willamette Valley Basin commission.

The ceremonies will begin at 2 p.m. with Gov. Douglas McKay as principal speaker. Also on the program will be Col. O. M. Walsh, northwest division engineer for the army engineers; Col. D. S. Burns, district engineer; C. C. Davis, resident engineer on the project and Al Bauer, general manager of the Consolidated Builders, Inc., contractors on the \$39,000,000 dam project.

Arbiter Grants Raise To Drivers of CTL

An increase of three cents an hour across the board for drivers and shopmen of City Transit Lines was recently granted by the Rev. R. J. Carmody of Seattle, arbiter who took over after employees of the concern and officials failed to reach an agreement after several weeks of dickering.

The drivers had asked for a 20 cent an hour increase and the shopmen wanted 25 cents. In addition to the wage increase the arbiter granted a 50 cents an

4 NG Divisions Called to Service

Washington, Aug. 1 (AP)—National Guard divisions called to active duty to strengthen the army's ground forces were announced today as the 28th, 40th, 43rd and 45th infantry.

A defense department announcement also identified the two national guards regimental combat teams being called up as the 198th of South Dakota and the 278th of Tennessee.

Here are the geographical groupings of the guard divisions and the points where they will train:

The 28th division of Pennsylvania at Camp Atterbury near Edinburg, Ind.

The 40th California division at Camp Cooke, near Lompoc, Calif.

The 43rd, composed of Vermont, Connecticut, and Rhode Island troops, at Camp Pickett, near Blackstone, Va.

The 45th division of Oklahoma at Camp Polk, near Leesville, La.

The 198th combat team will train at Camp Carson near Colorado Springs and the 278th team at Fort Devens, near Ayer, Mass.

The defense department announced yesterday that four divisions and two regimental combat teams were being called to active duty but did not identify them.

It withheld the identification for 24 hours so that the men of the various units might get the news direct first.

Morse Alert to Defense Needs

Washington, Aug. 1 (AP)—Chairman Lyndon Johnson (D., Tex.) of the senate armed services investigating subcommittee said today that defense of the Pacific northwest is going to get "adequate attention" from the group.

Johnson said he has personal knowledge of the northwest and also will be guided in his work for that section by Senator Morse (R., Ore.), the only west coast senator on the new subcommittee.

"I am delighted that Senator Morse has been assigned to this very important subcommittee," Johnson told a reporter. "His work will take priority over our other work."

"Senator Morse has been alert to the defense needs of the nation and insistent that adequate defense be given the northwest. The needs of the northwest will be uppermost in his mind."

"Our subcommittee is going to work together and see to it that everybody else does good work in defense."

The subcommittee was appointed Friday and replaces the Truman investigating committee of World War II.

It was reported that Morse's appointment to the subcommittee was opposed by Chairman Tydings (D., Md.) of the full armed services group. These reports had it that Tydings wanted Senator Gurney (R., S.D.), who declined to serve, and that other members of the full committee then prevailed on Tydings to name Morse.

Guam Transferred To Interior Bureau

Washington, Aug. 1 (AP)—Guam, American outpost in the Pacific, gained civil status at long last today.

After 50 years of military rule, the island passed at midnight from navy control to administration by the interior department.

This transfer, by executive order, came after a month's postponement.

Famed Explorer Killed in Arctic

Washington, Aug. 1 (AP)—The weather bureau announced today an internationally famed U. S. Arctic explorer and eight Canadian Arctic companions were killed in an airplane crash in the Canadian Arctic yesterday, 500 miles from the North Pole.

The explorer-polar meteorologist was Col. Charles Joseph Hubbard, of this city, one-time Harvard football team captain and all-American selection, who had been chief of the bureau's Arctic section since 1946. Hubbard, 48, was a native of Kansas City.

The wireless dispatch relayed to the bureau from Canada said Hubbard and the eight Canadian crew members of a Canadian Lancaster plane were killed while on ice reconnaissance near Alert, on Ellesmere island.

Their plane was reported to have crashed and exploded, killing all aboard, while dropping supplies by parachute to a weather station believed to be the northernmost in the world.

Strike Closes New York Paper

New York, Aug. 1 (AP)—The struck World-Telegram and Sun closed its plant today pending settlement of the CIO New York Newspaper Guild strike now in its eighth week.

Lee B. Woods, executive editor of the paper, said the plant closed at the end of the business day yesterday and would not reopen until settlement.

"Those of the business and editorial staffs who have been reporting for work at the plant and are handling assignments elsewhere are being paid," Wood said.

"Those employees who have been reporting for work are for the most part supervisory employees and are not members of the guild."

Commenting on the closing, Ed Easton, chairman of the World-Telegram and Sun unit of the guild, said "We are gratified that apparently management has realized it cannot break the strike, either by back-to-work movement from the guild or by forcing members of other unions to cross our picket lines."

"We hope it also means that management has finally realized the only way to settle the strike is across the negotiating table."

The big afternoon paper with 600,000 circulation has not published since the strike began June 13. Members of the mechanical unions have refused to cross the guild picket lines.

J. F. Dewey, Ex-Labor Mediator, Passes

Frackville, Pa., Aug. 1 (AP)—James F. Dewey, 63, a federal labor mediator who acted as peacemaker in some of the nation's most bitter strikes, died today after a brief illness.

Appointed a U. S. labor conciliator in 1922, Dewey served continuously until 1942, resigning to accept a post as labor consultant with shipyards. He was recalled by the U. S. several times to help end crippling production strikes, notably the General Motors walkout in 1946.

He entered labor conciliation work in 1919 as a Pennsylvania state mediator.

Pepperettes—The new singing sensations of America, The Pepperettes, were discovered in Nashville, Tenn., when Horace Heidt presented his concert there. These girls formed their singing group and sang for Youth, Incorporated, in Nashville, and had been singing around Nashville for about a year when Mr. Heidt gave them their big break. All three girls, Evelyn Weatherford, Jackie Joslin, and Joan Cherry, were born and reared in Nashville and graduated from Nashville high school. Their ambition is to become another famous group like "The Andrews Sisters" and they are rapidly making a name for themselves with their latest recording releases. The show will be at Salem high auditorium August 5.

Strike Closes Grain Elevators

Buffalo, N. Y., Aug. 1 (AP)—A strike which closed 15 grain elevators threatens to tie up Buffalo's four milling industry, largest in the nation.

Executives of the Buffalo Elevator Managers' committee said the industry might have to shut down in two days for lack of supplies if the strike called yesterday continues.

They said one or two mills might close today.

A total shut down would idle 15,000 workers.

The strike was called by about 450 members of local 1286 of the AFL Grain Elevator Employees union.

Picket lines were formed at the 15 idle elevators.

Locals 36 and 110 of the American Federation of Grain Millers (AFL), having about 3,000 members, said they would respect the picket lines.

It was the first elevator strike here in 17 years, although the mills were shut down briefly two years ago by a grain millers' strike.

Owen J. Kavanaugh, president of the striking local, said the union asks a 15-cent hourly wage increase, cut from an original demand of 25 cents.

Kavanaugh said the company offered five cents.

He also said the pay scale averaged \$1.45 to \$1.50 hourly with some special classifications making up to \$1.85.

The old contract expired April 15.

Independence—A copy of the catalog for the 10th annual Willamette Valley purebred ram and ewe sale which will be held at the Linn county 4-H building in Albany on Saturday, August 5, is available to sheepmen in this area and may be secured by writing the sale secretary, O. E. Mikesell, courthouse, Albany.

Sears Party Received Here

High officials of Sears, Roebuck & Co., arrived in Salem by chartered airplane at 1:45 Tuesday afternoon and spent an hour and 30 minutes here visiting the big Sears plant in the Capitol Shopping Center.

In the party were: A. T. Cushman, vice president of Sears, Roebuck & Co.; Paul W. Brown, assistant to the president; L. E. Oliver, national retail sales manager; F. R. Michaels, merchandise manager; J. H. Dow, supervisor; O. H. Struthers, supervisor; C. E. Bray, personnel; R. O. Curry, auditing division; S. A. Epstein, sales manager; R. L. Hobart, merchandise manager; J. A. Adridge, director of research; Nathan Ash, supervisor.

They were received at McNary field by James Mosolf, Salem manager for the company, and his corps of assistants.

Chin-Up Club Picks Advisory Board

The board of decorators of the Chin-Up club of Oregon, at their meeting July 28, appointed the club advisory board and officers.

On the board of advisors are Karl Wenger, chairman, Judge Rex Kimmell, Dr. Fred W. Lange and W. W. Chadwick.

Officers appointed were: state membership chairman, Mable Sample; out-of-state membership chairman, Opal Judd of Millwaukie; sunshine chairman, Ben and Bernice Tweed; Oregon Beacon editor, Ruth Dimick of Portland; circulation manager for Beacon, Edith Cowden; proofreader, Mrs. M. K. Sweetland of Salem; advertising manager, Robert Clayton of Portland.

Dalles PUD Bid Denied by State

A request by The Dalles PUD for an opportunity to bid on furnishing power to the Eastern Oregon Tuberculosis hospital was denied by the board, with State Treasurer Walter J. Pearson opposing the action.

Gov. Douglas McKay and Secretary of State Newberry contended that inasmuch as the average monthly electrical bill at the hospital was only \$180 and that Dr. J. M. Odell, superintendent, had expressed satisfaction with the service given by the Pacific Power and Light company, no change should be made.

A recommendation by L. L. Laws, of the state flax board, to process 175 tons of flax under contract in Linn county to the state in the pilot plant of the Santiam Flax growers, was adopted. Laws said that by this action the state would have an opportunity of comparing the grade of flax produced with the pilot plant with flax produced at the penitentiary plant.

The board took the state out of the gasoline and oil business when it decided to close the state-owned service station which showed a \$135 loss in the last three months. The station was opened four months ago to serve state-owned cars.

Schumacher Talks on Insanity

A sound and constructive approach to the problem of mental health may not empty our state hospitals, but it will most assuredly make for better living, declared Dr. Henry C. Schumacher of San Francisco Tuesday noon before the Salem Kiwanis club.

Dr. Schumacher, consultant in mental health for the U. S. public health service, stated that the real problem in mental health is one of emotions. When the fact that more than half of the country's hospital beds are filled with the mentally unstable is considered, then the condition becomes one of high economic importance, said the speaker.

That insanity is not inherited but results from home conditions in many instances was Dr. Schumacher's declaration. He said that one out of every 20 persons is due to spend some time in a mental institution. He credited the state hospitals with doing an excellent job when the amount of money they are given is considered. Most of the advances made in the control of

Material for Ground Defense Posts Shipped

Necessary material for operation of ground observer posts is being dispatched immediately to supervisory personnel the headquarters of Western Defense Force, Hamilton Air Force Base, announced Tuesday.

This material, which is to be used by the supervisors to establish the required observation posts and train individuals to operate them, has not yet been received here, however.

Charles Barclay, supervisor for the Salem post, which comes mental illness, he added, stems from the work carried on by the state institutions.
