Serve Melons Anytime

Serve a melon platter with mint mayonnaise (recipe follows) for an evening snack when friends drop in. Add a colorful fruit such as strawberries or cherries. Or preface the platter with a hearty soup and serve it as the piece de resistance at lunch, adding lemon wedges; or with French dressing as a first course, California style, at a company dinner.

The best cantaloupe on the market are picked when they separate from the vines of their own accord. The slightly shrunken, smooth, well-callsused scar at the end of these melons is guarantee that they're vine-ripened and at peak flavor.

One cardinal rule in melon service—whether it's cantaloupe or honeydew; chill well in the refrigerator. But wrap the melons carefully before you store them so their flavor won't penetrate other foods.

One of the pleasant points about cantaloupe is that it's high in nutritive value. A half cantaloupe goes a good way to supply you with the vitamin C you need for one day. For an extra-nutritious and delicious dessert serve cantaloupe with scoops of vanilla ice cream and top with fresh grated coconut.

Melon Platter with Mayonnaise
 Ingredients: 1 honeydew melon, 2 cantaloupes, 1 pint strawberries or 1 pound cherries, 6 ounces package cream cheese, cream, chichory, 1/4 cup mint jelly, 1/4 cup real mayonnaise, 1 tablespoon lemon juice.

Method: Cut honeydew in eights and remove seeds. Shape cantaloupe into balls with vegetable ball cutter or one-half teaspoon size measuring spoon. Wash and pick over strawberries or cherries. Mash cream cheese with a fork and stir in only enough cream to make a good consistency to handle; form into balls the size of the cantaloupe balls. Arrange fruit and cheese balls on large platter. Garnish with chichory and fresh mint. Break up mint jelly with fork and mix well with mayonnaise and lemon juice. Serve with melon platter. Makes 6 servings.
