

### Woman Killed By Gunman

Merrill, Ore., Oct. 21 (AP)—Police prepared today to search the lava badlands south of here for two gunmen who killed a 50-year-old woman and wounded a store owner in a robbery attempt last night.

The pair, both Negroes, fled after the shooting at a grocery store on the California-Oregon boundary, three miles south of Merrill.

Mrs. Velise Ainsworth, 50, clerk at the store, was killed outright. The store owner, Ray Merrill, 56, was wounded in the leg.

Merrill said the two ordered soda pop, then pulled out pistols and demanded money. As Mrs. Ainsworth turned toward the cash register, her husband, W. C. Ainsworth, walked in.

He jumped for one of the gunmen, and in a scuffle, the Negro's gun went off. The bullet struck Merrill. The other then shot Mrs. Ainsworth twice, one bullet going through her heart, Merrill said.

They ran outside, jumped into a waiting automobile, and sped away to the south, Merrill added. Police set up road blocks, to no avail.

The store is on the state line road, along the state boundary. It is on the California side of the road.

### Little Alice's Invitation Was Not Delivered

Stanwood, Mich., Oct. 21 (AP)—Little Alice Benson, ill with cancer, isn't expected to live much longer and her parents decided to make her eighth birthday next Tuesday "the best one ever." Doctors say she won't have another one.

But Alice knew she was very sick and couldn't play with other children. So nurses at Convalescent hospital suggested she invite five-year-old Carol Park who, they said, "is just as sick as you are."

A nurse wrote an invitation to Carol asking her to "come visit me and play with my dolls." Then Alice signed her name.

Yesterday the postman delivered the letter to Carol's house at Hersey, Mich., 30 miles away. But there was a black wreath on the door. Carol had died of heart disease the night before.

### Tighter Curbs Loom on Buying

Washington, Oct. 21 (AP)—Presidential Assistant John R. Steelman feels that tighter curbs on installment buying may be imposed by the government to combat inflation.

Moreover, he told the Mt. Holyoke Alumnae association last night, that other types of controls "may become necessary."

Steelman's hint at new restrictions came at the end of a day during which:

1. The national production authority (a) restricted rubber companies in their use of materials and (b) set aside for the defense program the entire production of stainless steel containing columbium.
2. The commerce department ordered a ban on all exports of molasses, a principal source of industrial alcohol.
3. The rubber order limits tire manufacturers and other users to 75 percent of the amount of natural rubber they consumed in the year ended June 30. It sets consumption of all rubber, including synthetic, at 84 percent of the base year's use.

Officials said this would give manufacturers about the same amount of rubber they were getting before the Korean war. They renewed assurances that no tire shortage is in sight.

The action on molasses fits into the rubber picture since alcohol is used in great quantities by the synthetic rubber plants which the government is pressing back into service.

### UCLA Bonfire Explodes, 9 Hurt

Los Angeles, Oct. 21 (AP)—A 67-foot homecoming bonfire blew up last night in the middle of thousands of celebrants on the campus of the University of California at Los Angeles. The explosion injured nine persons, none seriously. Windows several blocks away were shattered.

Police estimated a crowd of 25,000 students and alumni was gathered around the huge pile when it exploded shortly after it was ignited. Planks and boxes showered on the crowd, gathered on the Bruin practice field.

The injured were treated for cuts and bruises at nearby Santa Monica hospital and released. All were southern Californians.

Students had spent weeks gathering the bonfire materials. The celebration preceded the UCLA-Stanford game today. Fortunately the crowd was held back 100 feet by ropes encircling the bonfire.

Capt. L. E. Christensen of the campus police said several small bombs, presumably placed by pranksters, were removed from the pile hours before it was ignited but one or more may have been overlooked. He also said a gunpowder fuse used to start the fire may have caused the blast.

The UCLA graduate manager, William C. Ackerman, said he had no theory about the cause but "I am certain Stanford had nothing to do with it."

### Illegal T. V. Station Closed

Washington, Oct. 21 (AP)—The Federal Communications Commission said yesterday it has located and closed down an illegal television station—its first.

The station, atop a Pennsylvania mountain, was being operated by the tube division of Sylvania Electric Products, Inc., Emporium, Pa., the FCC said. Sylvania is one of the country's largest producers of television tubes.

The explanation given by company officials for the unlicensed operation, the commission said, was that they needed TV service in their business but knew the two-year-old freeze on TV broadcasting permits ruled out a new station permit.

At Emporium, M. F. Balcom, Sylvania board chairman, had no comment.

The FCC noted that unlicensed TV operation involves a possible fine of \$10,000 or two years imprisonment or both. It said "further proceedings will be taken" in the case.

### Busy Picker

Fairview—At the Ross Rogers 40-acre walnut orchard in the Fairview district, one girl, Dorothy Brutke, picked 20 sacks in a single day. Because of frequent rains, waterproof clothing has become compulsory among the pickers, the majority of whom are women.

### 5 El Paso Youths Killed in Crash

El Paso, Tex., Oct. 21 (AP)—Five El Paso youths were killed today in a truck-auto collision while returning from a high school football game at Plainview, Tex.

The dead: Antonio Ybarra, 22, Bowie high school alumnus; and Tommy Mendoza, 17, Manuel Cabrales, 17, Roberto Lopez, all Bowie high school students; and one unidentified youth, also a student.

J. W. Grissan, El Paso, truck driver, was hospitalized for bruises, shock and possible concussion of the brain.

The accident happened 20 miles east of El Paso on U. S. 82. Ybarra was driving the auto with the other youths as passengers.

State police and Grissan said the auto was on the wrong side of the road.

"I saw the auto coming at me," said Grissan. "It looked as if the driver was asleep. There was no place to go. I set my brakes."

"I blacked out. When I regained consciousness, I was lying in the highway. The car was embedded into my truck. A car came along and they started to get the bodies out of the wreckage."

In colonial America bowls, mugs and pitchers were blown from blue, amber, brown or green glass. Replicas of these famous pitchers are still being made in America glasshouses today.

### Army to Call More Doctors

Washington, Oct. 21 (AP)—The army plans further calls on the selective service system for physicians, dentists and veterinarians.

It said today that the request already made to selective service for 922 physicians, 500 dentists and 100 veterinarians by January 15 represents only part of the army's total needs.

"Additional requests will be made later as necessary to meet our requirements," a spokesman said. "Current uncertainties preclude firm estimates being made more than a few months in advance."

Selective service is to meet the pending request from among 21,101 medical men who registered last Monday.

As soon as the medical draft law has produced enough doctors to meet current requirements, an army spokesman said reserve medical captains and lieutenants who have been called to active duty involuntarily and who have had previous military duty will be relieved progressively if they request it. Slightly more than 100 doctors now on active duty will be eligible for such relief.

Last Monday's registration included medical men trained at government expense, or deferred from military service during training, who thereafter served more than 90 days but less than 21 months in the armed services or public health service.

Other groups of physicians, dentists and veterinarians are to be registered between now and next January, at a date yet to be fixed by selective service headquarters. Army officials do not anticipate early need for these but said their registration will let the government know how many doctors, dentists and veterinarians are available and where they are in case they should be needed eventually.

### Gunman Killed In Police Trap

Baltimore, Oct. 21 (AP)—A young gunman was killed early today when he and two partners tried to shoot their way out of a police ambush in a North Baltimore food market.

One of his accomplices was critically wounded and the third was captured in the blazing gun battle shortly after midnight.

Of the five police who sprang the trap, one suffered minor wounds and four were unharmed.

But two other policemen, called to help the five in the store, suffered minor injuries when their prowl car smashed into the market and burst into flames.

### Mrs. Elfstrom Talks on Europe

A thumbnail sketch of a three and a half month tour through Europe and Africa was presented to the Salem Credit association Friday by Mrs. Robert L. Elfstrom.

Her lively and picturesque report briefly outlined her impressions of things and people in England, Belgium, Holland, France, Switzerland, Egypt and Ethiopia.

Mrs. Elfstrom, traveling with a sister, boarded a Liverpool-bound boat in Montreal, Canada, early last spring. A boat jammed with pilgrims intent on visiting Rome during the holy year.

The port of Alexandria and a trip on the Nile were highlights of a trip which ended in Addis Ababa. Her description of the poverty and general condition of Ethiopia was summed up with a description of how hyenas roamed the streets at night to scavenge for food.

### Dionne Quints Tour N. Y. City

New York, Oct. 21 (AP)—The Dionne quintuplets, shy but smiling faced up like veterans before the pop of photo flash guns as they got in their good look at big city sights yesterday.

The 16-year-old quints—Yvonne, Marie, Cecile, Emilie and Annette—were accompanied on the tour by 11 classmates from Villa Notre Dame high school near their home town of Callander, Ont.

With Francis Cardinal Spellman as their host, the celebrated sisters sandwiched in sight-seeing with a radio broadcast, a visit to St. Vincent's hospital, and posed holding babies at the New York Foundling hospital.

In addition, they appeared at New York's Cathedral high school to sing "The Sidewalks of New York."

The girls talk little, a bit embarrassed—says their father, Olivia Dionne—about their poor English. On the radio broadcast they repeated, five times identical voices, "yes, we are having a wonderful time."

### Big 5 Discuss Lie's Expiring Term

Lake Success, Oct. 21 (AP)—The Big Five were reported to have agreed today to hold private meetings over the week-end on what to do about UN Secretary-General Trygve Lie's expiring term.
