

Crime Laboratory Director Quits at Public Hearing

Dr. Howard Richardson, director of the state police crime laboratory in Portland, resigned yesterday at a house state and federal affairs committee legislative hearing after he accused his boss, State Police Supt. Harold G. Maison of having a "lack of administrative understanding."

Moving to Reconsider Oleomargarine Bill

Supporters of the defeated bill to allow sale of colored oleomargarine said today they would try to get the house to reconsider its action.

Rep. John P. Hounsell, Hood River, who voted for the bill when the house defeated it 30 to 28 yesterday, said he and other supporters of the bill would work during the next few days to get enough votes for reconsideration.

That means the sponsors would have to pick up 12 more votes — which opponents say is impossible.

"If we were voting on colored oleo, it would pass," said Hounsell, asserting he had picked up at least three more votes. "Some of the republicans and eastern Oregon representatives, as well as some of the dairy industry, thinks now that they made a mistake," he said.

Multnomah Group In Musical Mood

Multnomah county's legislative delegation voted today to support a bill which would let the city of Portland levy a .15 mill tax to support its junior and senior symphony orchestras and summer band concerts.

The bill would allow petitions to be circulated to put the measure on the ballot.

Oregon Hop Men Oppose Market Code Amendment

Silverton—At a recent meeting of Oregon hop growers at Toney's, the purpose of the session was to get petitions started in opposition to the "proposed amendment to the marketing agreement and order."

At a second meeting called by the chairman, John Overlund, the move is being met with active favor from the growers in mid-Willamette valley and other hop growing sections of the Pacific northwest. An official was added to the present set-up at this session in the election of a vice-chairman, Walter Von Flue, to fill the new position. The present list of officials locally now includes Overlund, chairman; Von Flue, vice chairman; Harvey Gehring, secretary; and Herman Kuenzi, treasurer.

Since the action taken by the group has excited attention, many are interested to know more of the meaning of the motive.

The marketing agreement and order was set up by the hop growing industry to stabilize prices in times of over-production, and furnishing good quality hops to the trade.

This seems to have met with favor among the majority of growers generally.

This agreement is not a government subsidy plan or federal assistance move.

It is self-supporting by the hop industry.

The industry tries to determine in advance how many hops the trade will need and try to keep the supply within the demand.

Billy Graham Film Woodburn — The story of

Railroading Is Exacting Job

Railroading is indeed a man's life... it's a hard, exacting, but satisfying job. And no one knows this better than Mr. Ben E. Nix, Sr., of 2115 Ringo, Little Rock, Arkansas, who has been a railroad man for twenty-seven years. Yes, twenty-seven years is a long time, and a man has to feel in top-notch condition to

keep going. For a while Mr. Nix didn't feel much like eating, and was just generally run-down. He had heard a lot about HADACOL, but just didn't quite believe it. Finally, he decided to give it a trial and was amazed at the results. He started feeling better after the first bottle and says he is going to continue taking HADACOL. Mr. Nix found that HADACOL contained Vitamins B1, B2, Niacin and Iron which his system lacked.

Here is Mr. Nix's own statement: "Sometime ago a friend of mine recommended HADACOL very highly to me. At the beginning I was very much amused at the thought of HADACOL. However, I did decide to give it a fair trial, and to my amazement, it helped me greatly. I was run-down, tired and had no appetite. After the first bottle of HADACOL, I felt better. My appetite had picked up, and I really felt like eating at meal-time for the first time in a long time. I feel that the Vitamins and Minerals, which HADACOL contains, have built up my run-down condition, and I intend to continue using HADACOL." Adv.

Alec Templeton, versatile pianist who will be presented in concert Saturday night by Associated Students of Willamette university in the high school auditorium.

Templeton to Play Saturday

A rare musical treat is certain for the people of Salem and vicinity the night of February 24 at 8 o'clock when Alec Templeton will be presented in concert by Willamette university's associated students. The concert will be given in the high school auditorium.

Templeton's recital programs combine the noblest music with the lighter vein and illustrate his complete sincerity in touching

both the classic and popular elements. "There is never a suspicion of playing 'up or down'," said a critic. "He believes both elements are part of music."

The Templeton concert in Salem will be filled with laughter and musical enjoyment for everyone, his sponsors declare. His program will include numbers by Bach, Mozart, Chopin, Couperin and his own compositions and improvisations. Tickets are available at Heider's, Will's, Salem Record shop and Stevens Jewelry.

The hydraulic press was invented in 1795 by Joseph Bramah, English engineer.
