Demand Reds Be Registered

Washington (AP) — A government panel Monday called the American communist party "a puppet of the Soviet Union" and recommended that it be required to register with the U. S. government and bare its membership roster and its finances.

The recommendation came in a report by a two-member panel of the subversive activities control board, which had listened to more than 14 months of testimony.

"Nurtured by the Soviet Union," the panel report said, the party "strives incessantly to make the United States a Soviet America."

The panel recommended that the party be required to register with the attorney general as Moscow-dominated, list its officers and members, and give a financial accounting.

This marked the first step in a "you must register" drive directed against the American communist party.
