False Teeth Lodge in His Throat

Birmingham, Ala., (*)—A house painter was hospitalized after his false teeth lodged in his throat at a suburban tavern

A waitress, Mrs. Elsie Smith, said she saw Albert Tate choke and turn black in the face. He threw his head back and she spotted his upper plate lodged in his throat.

She said she pulled out the plate.

Tate was listed in good condition at a hospital.

their definitions are written on

questions as "How many newspapers and magazines use

New York (49) — Did you ever with time. A college dictionary cealize, when you pick up a dic- often has 125,000 to 150,000 entionary, that you may have con-tributed to its making? tries. If 100,000 of these are technical terms and the average

and produces special new words.

"I estimate that, in every dictionary, about 5,000 new words up for consideration and about 3,000 of them get in. One such word is 'simulcast,' a word coined by a press agent, meaning coined by a press agent, meaning to broadcast by radio and tele-vision, simultaneously. Another-the right technical words, he vision simultaneously. Another vision simultaneously. Another reads two hous a day. A corps is 'fluoridate' meaning to add small amounts of fluorine to drinking water.

The words they select and drinking water.

"Words are dropped out too, file.

The slips are divided among editors, Each editor. as they drop out of general use. In the last analysis, educated people make the dictionary."

The slips are divided among a group of editors. Each editor checks his list against such Barnhard, a big brown-haired, scholarly-looking man who loves a laugh, has been making dictionaries for 23 years. He started with a part-time job with a Chicago textbook pub-lisher while he was a University

of Chicago student. He is now in business for him self in Bronxville, N.Y., under contract to Doubleday and Company, New York publishers, and Scott Foresman, Chicago

publishers of schoolbooks.

At present he is working on a new college dictionary which he hopes will be ready in five

"The dictionary is divided into the common vocabulary words like go, get and give (and the technical vocabulary scien-tific terms)," says Barnhard. The technical keeps growing and crowding the common. The hardest job becomes deciding how to define the common words.

which have so many meanings.
"The meticulous work required on thousands of words can make dictionary making an expensive business. The dictionary ARTISTS TAKE OVER

Three-Dimensional Films **Demand New Techniques**

Hollywood is converting to

Only one studio—20th Century Fox—has said it will soon make no more "flat" pictures. New films using the new methods are announced every day and some are already before the cameras.

I visited Warner Brothers,

where the first borror picture in three dimensions is being filmed. It is called "House of Wax" and is aimed at scaring the bejeepers out of movie fans.

The story, filmed in Natural Vision, presents Vincent Price as the mad operator of a wax

I found Price in a corner of the commissary, where he is required to eat apart from the

The reason is his horrific makeup, which harks back to the Lon Chaney days. "Just call me 'Old Repulsive'," he mumbled through layers of plastic.

doesn't scare them, nothing will."

Over at Paramount, Pine and Over at Paramount, Pine and Thomas are making a costume adventure called "Sangaree." The picture had already been shooting for three weeks when the producers decided to film it in three-dimensional Paravision.

The new technique requires marked. "But they appear sev-eral feet apart when you see it on the screen.

MGM is getting ready to film its first 3-D, a rodeo story called "Arena." I found director Rich-

them?" and "How important has

He decides which ones mee the test and writes a finished definition. If there is any question, Barnhart has the final

Common and technical words "The big business of a dictionary maker is to know the times," says Clarence L. Barnhart, one of America's leading dictionary-makers, now working on his ninth.

technical terms and the average time for a definition is 10 minutes, this means a million minutes, this means a million minutes, or more than eight years of control of the dictionary-makers, now working on his ninth. ictionary-makers, now working 40 hours a week.

"Then there is the cost of typing the language is growing all ing the manuscripts. There are plete reading and editing. The reading and editing. The the time. Every period brings its new developments and interests and produces special new words. In the first period brings its generally three of these and they second typing incorporates changes. The third is generally the first manuscript. the final manuscript. This is the way the Barnhart
