Jaycees Plan Dist. Meeting

Woodburn — The regular meeting of the Woodburn Junior Chamber of Commerce was held Tuesday night at the library club rooms with L. H. Hildebrandt presiding. Plans were made for a district meeting at Woodburn March 15, beginning at 2 p.m. at the American Legion hall.

About 100 people are expected to attend. The district includes Salem, Albany, Silverton, Dallas and Woodburn and members from Portland are also expected and several state officers. Committees will be announced later by Hildebrandt.

A report was given by Bob Elder, chairman of the recent "Cabin Boys" concert, who expressed appreciation to the committee in charge and to the newspapers for publicity. The sum of \$25 was voted from the treasury to the library for the junior book shelf fund.

It was announced that the recent membership contest was won by team captained by Armon Ball, Jr., and plans were made to give a dance in honor of the new members and the winning team by the losing team of which Al Ringo was captain. A tentative date was set for March 21.

Reports were given on the state board meeting held at Medford by Hildebrandt, Lynn Simon and Bob Miller who attended. It was announced that the "Lite-a-bumper" campaign has been adopted as a state project and that some 40 per cent of car bumpers had been equipped with the tape in several states.

The project will continue in Woodburn in the near future. Local bicycles will be equipped with tape soon by the local group. Harold Livesey is chairman.

March 27 was announced as the date for the "action auction," a community project, to be held at the armory, and several Jaycee members plan to donate their services. It was also voted to assist the PTA in the carnival planned for March 20 at the Washington school.

Future programs for the year were discussed. Refreshments were served after the meeting by Paul Dickenson and Bob Sawtelle.

Doctors Use Leeches To Avoid Criticism

London (AP)—The news that the Soviet Union's top doctors are using leeches on stricken Premier Stalin raised some medical eyebrows in the United States today but caused no surprise in Russia. Today's medical bulletin on Stalin's condition said that for the second time "leeches were used to draw blood," presumably in an effort to lower the patient's high blood pressure.

In Chicago, a spokesman for the American Medical Association said the blood-sucking worms were out of date both in the United States and Europe, but maybe the Kremlin doctors wanted to be sure that if Stalin died, no old-fashioned Russian could accuse them of not using every possible remedy.
