TELE-VIEWS
 Radio-Television
 By DAVE BLACKMER

Eyewitness accounts of the history-making atomic explosion to be detonated by the Atomic Energy Commission at Yucca Flats, Nevada, Sunday, March 15 and Tuesday, March 17, will be seen over KPTV.

The blast which is slated for Sunday, March 15 at 11 to 11:30 a.m. is a preparation blast for the big one due Tuesday. The televising of the preparation blast is not definite yet as KPTV has to dispose of a network program before they can go ahead on the telecasting.

The Tuesday morning event will show the actual blast and the televising will take place between 5 a.m. to 5:30 a.m. Blasting time will be 5:20 a.m. on the nose Tuesday morning.

TELE-VIEWS will present on on-the-scene report directly from KPTV studios Tuesday morning. So watch for our story Tuesday on the atomic bomb blasts. This will save you the trouble of getting up that early.

Another blast, the third and final one will be held Tuesday afternoon at 1:45 to 2 p.m. However, this is just another minor blast.

The AEC test, part of a series being held by the government organization, will essentially show the effect of an atomic bomb upon a small city, graphically demonstrating the results of the concussion, heat and radiation of a detonated fission bomb when applied to typical family dwellings, furnishings and motorcars.

The awesome weapon will be mounted upon a steel tower surrounded, at varying distances from "Ground Zero" by test buildings and automobiles.

A joint network committee, formed to produce the show, consists of Producer Frank La Tourette (ABC-TV), Bill Whitley, assistant producer (CBS-TV), and Film Producer Ray Neil (NBC-TV).

The atomic test will be directed by Klaus Landsberg (KTLA), who is responsible for setting the relay to transmit the history making event from Yucca Flats to nationwide points.

News Commentators Chet Huntley (ABC), Morgan Beatty (NBC), and Walter Cronkite (CBS), will describe the AEC's eighth series of postwar atomic tests.

Following the morning atomic blast, supplementary reports will be seen over KECA-TV and the ABC-TV network as soon as the radiation level has descended to a safer geiger count level.

As the newsmen move into the blasted area they will collate many aspects of the destructive force of the bomb upon the typical "dummy city" and present their reports to nationwide viewers on a continuing basis during the telecast day.

KPTV audiences will not only see the bomb in full detonating force but will be fully informed on the results of the fission blast.

Staff Doctor Talks to Group

Dr. Rudolph Rosenfelt, staff physician of the TB unit of the State Mental hospital talked to the board of directors of the Marion County Tuberculosis and Health association at their meeting in the hospital Wednesday night.

A tour of the hospital was made by the group. Dr. Rosenfelt explained his treatment to the patients and said his use of the new drug isonicotinic acid hydrazide had helped many of the cases. Dr. Rosenfelt said he had used the drug along with other therapy for the past nine months with 180 patients who are in the new TB ward at Oregon State hospital.

Dr. Dean Brooks, assistant superintendent at the hospital, told the group members the common belief that once a patient is admitted to the hospital he never gets out is false. Forty-four per cent of the admissions are voluntary, he said. About 2,500 patients are admitted each year, and 2,100 discharged.

The next meeting of the association will be March 30 at 7:30 p.m. which will be the annual meeting of the association and open to the public. It will be held at the Knight Memorial church in Salem, and Senator Robert Holmes will speak on "Legislation and Public Health."

This Family Has Unusual War Record

Three sons of a Paynesville, Minn., mother who has sent a total of eight boys into military service in recent years, are currently living in Salem and the Willamette valley.

The mother is Mrs. Alvina Herzberg and it is believed her record is a high mark in connection with military service throughout the entire country.

Gordon K. Herzberg, of 1911 North Church street, in construction work, is one of the eight sons who have settled in the west. The others are Rheinholdt of Willamina, whose wife is a teacher in the schools of that community; and Noble of Lane county.

Erwin, Norman and Arthur Herzberg, also lived in the Willamette valley. Three of the sons are still in military service.

Canada was united under one government in 1867
