

Derby Movie Here; Good News for Youngsters

By VIO FRYER

Well, kids, here we go again with some more Derby news. Biggest thing on tap right now is the official Derby movie that just arrived and will be shown at a good many schools and clubs around here during the next two weeks before we have to send it on somewhere else.

The movie is called "Where the SON Shines" and is a story of the Soap Box Derby from the beginning of the racer building to the final race in the All-American Derby at Akron.

Along with the movie will be information sheets on the local Derby race that will be distributed to you boys. You can give thanks to Tom Roen over at Roen Typewriter Exchange for running more than 3000 of these sheets off on the mimeograph for us—just another example of how people all over the Mid-Willamette valley area are joining in to help make this Derby the biggest boys event that ever hit Salem.

Dick Rogers of 890 Electric street is handling the movie and he says it's already scheduled to show at 12 schools next week with several others about to get on the schedule.

This week it will be shown at the annual dinner of the city firemen and auxiliary, the YMCA, the Soap Box Derby association and several other organizations. Monday the Chamber of Commerce and Tuesday the Junior Chamber of Commerce will see it in addition to several schools.

Since school vacation is this week, we will only have a week to show it at the schools but we hope most of them get to see it around Salem.

A lot of the men's organizations will get to see it this week and evenings of next week so maybe your dad will get to see it before you do.

Incidentally, if your school doesn't have the show scheduled, tell your teacher or principal to contact Dick Rogers at his home, phone 2-5550, and he will try to arrange for it at your school. Tell your dad the same thing goes for his service club or other organization.

Remember, it's not too early to get registered and start building that racer. Take your dad or mother down to Douglas McKay Chevrolet company right away to sign up and get your driver's license and official rule for 1953. So hurry!

Sprague Lays Gutter Tactics to U.N. Foes

Portland (AP) — Ex-Governor Charles A. Sprague has charged that people who "dig in the gutter for their dirt" have launched an attack against both the United Nations and the UN's Educational Scientific and Cultural Organization.

Sprague said among them are the isolationists who are unwilling to undertake any international work, as, for example, Col. McCormick and the Chicago Tribune.

The Salem newspaper publisher spoke yesterday to delegates attending the 50th annual Oregon Education association convention here. Sprague served recently as an alternate delegate to the UN General Assembly.

Above Normal Temps. Seen for Next 30 Days

Washington, (AP) — The weather bureau today forecast temperatures will average above seasonal normals in most of the Western United States for the next 30 days.

Temperatures will be near normal along the west coast, and also in eastern portions of the nation, except in the vicinity of the Great Lakes where they will be below normal.

Rainfall is expected to exceed normal along the west coast.

Negro Who Saved Colonel Identified

Western Front, Korea (AP) — A 19-year-old Negro who was "helped by the Lord" stood in front of a bunker on embattled Little Gibraltar Tuesday and kept attacking Chinese Communists from reaching a wounded American lieutenant colonel.

Pvt. Courtney L. Stanley, Mansfield, La., was identified as the soldier who saved the officer's life and two other men in the bunker. The colonel's name was withheld.

Stanley said he killed eight Chinese who attacked the bunker. He suffered only a few scratches from Communist concussion grenades and was still on duty on Little Gibraltar Wednesday.

A Second Division officer took Stanley to a rear area where Pfc. William Wuorinen of Naselle, Wash., who was with the wounded colonel, identified Stanley and said: "He saved everybody's life in that bunker."

Stanley said, "I think God was really with me that time. I know He was."

Non-Party Going Peru Envoy to Lose Post

Lima, Peru (AP) — Peru recalled its ambassador from neighboring Ecuador today after the Quito government declared him unwelcome because he wouldn't go to official parties. The Peruvian envoy said the Ecuadoreans cold-shouldered his shindig first.

CHARGED

Clarence Simpson, above, 13-year-old freckle-faced boy has been charged with first degree murder in connection with the gun shot killing of his mother, Mrs. Vivian Simpson, 43, near Modesto, Calif. Charges have also been filed against his father, Henry, 58. Stanislaus County Deputy District Attorney Frank Pierson quotes the boy as saying "It was either her or me." (AP Wirephoto)

Foreign Study Tours listed

Three foreign study tours will be sponsored by Willamette university this year under the direction of the Student International Travel association.

Under each plan members of the group, whether students in residence at Willamette or not, would be enrolled in the summer session of the university. They will be able to take the work for credit.

The French study tour includes a round trip steamer from New York or Canada and a visit to Paris. Students will live with families in Grenoble while attending the university and excursions in the Alps will be taken.

The Spanish tour will include a round trip steamer from New York. Following a visit to Paris the group will travel by rail through south France to Santander for a four week study period at the University of Santander which is situated on the Bay of Biscay.

The third expedition is the Romance Language tour, combining a program of French and Spanish study trips, in a unique low cost grouping. It includes a round trip steamer from Canada or New York, a visit to Paris and four weeks at the University of Grenoble and four weeks at the University of Santander.

Dr. George Hocking, professor of language at Willamette, will guide one of the study tours.

Mt. Angel Ayrshire Herd Finishes Test

The purebred Ayrshire herd of the Stephen Hemshorn estate, Mt. Angel, has completed its sixth year on the Ayrshire Herd Testing Plan with an average of 9961 pounds of 4.3% milk and 431 pounds of butterfat, actual.

According to a report from the National Ayrshire Breeders' Association office in Brandon, Vt., the herd of 14 milking females is credited with 10,784 pounds of 4 per cent milk on a mature equivalent twice-a-day milking schedule.

The highest butterfat producer in the herd was River Dale Marsala with 12,523 pounds of 4.4 per cent milk and 552 pounds of butterfat, actual.

2 Transports Bringing 6300 Men from Korea

San Francisco (AP) — Two transports from the Far East arrive today with more than 6,300 servicemen.

The Gen. M. C. Meigs is bringing 4,379 Korean veterans—4,106 Army men, 269 Marines and 4 Navy personnel.

The General Mann is carrying 1,716 servicemen from duty in Japan—999 Air Force, 442 Army, 270 Navy, 4 Marines and 209 civilian dependents.

A third transport, the President Jackson, was due from Hawaii with 336 servicemen and dependents.

'Change of Life Made Me Scream at My Husband'

Mrs. M. Unelocher of Mt. Vernon, N.Y. "How I don't suffer from hot flashes and nervousness—feel fine," she adds "If you, too, are suffering from the irritable, restless feelings and hot flashes of change of life—listen! In tests by doctor Lydia Pinkham's Compound and Tablets gave relief of such functionally-caused distress in 13% and 80% (respectively) of the cases! Complete or striking relief!"

Yon Research has proved these medicines thoroughly modern in the relief they give from those nervous "out of nerve" feelings of mid-life "change"! One Lydia Pinkham's Vegetable Compound or new Tablets with added iron! Wonderful, too, for functional pains of monthly menstrual periods!

It acts through sympathetic nervous system to relieve distress of "hot waves!"

Seek Seasonal Labor Near At Hand, Official Advice

Oregon, along with other coastal states, will be urged to seek its supply of seasonal labor close at hand.

This is the report William S. Byers, secretary-treasurer for the Oregon Agricultural association, brought back from the recent annual farm placement conference held at Salt Lake City. The conference was attended by representatives from 11 western states, extending from Canada to Mexico.

Also attending from Salem was Joseph Wilson, farm placement supervisor for the state unemployment compensation commission.

Nationally known figures attending the conference included John E. Goss, regional director of Denver, who recently returned from a tour of Europe where he noted the trends in labor. Goss said European problems were similar to those in the United States, in that the various countries borrowed workers from their neighbors.

Mark Holmas, economist with the U. S. department of agriculture, reported the supply of agricultural labor up 45 per cent over 1935. The demand was higher, too. He stated that 360 million acres will be in crop in 1953. The 1952 crop was the second largest in the country's history.

Cutbacks in cotton of 18 per cent, wheat of 7 per cent and flax and oil crops, such as soybeans of 13 per cent have been asked by the agriculture department, said Holmas. There will be increase in feed greens and grasses to balance the over-all program.

Releasing of cotton harvest workers will not mean an additional supply of labor for Oregon, reported Byers. He stated there was a need for skilled farm labor in connection with the operation of machinery. And in this connection he said that one out of every four men being released from military service are returning to agricultural pursuits.

Cargo Vehicle Sinks, 3 Die

San Francisco (AP) — A test model of the Army's huge amphibious military cargo vehicle Barc sank off Pigeon Point, 40 miles south of here last night, and three crewmembers aboard were drowned.

The 61-foot craft, believed to be the only one of its kind in existence was being towed from Fort Ord to San Francisco for landing and launching exhibitions tomorrow when a line linking it with the tugboat snapped in heavy seas.

The Coast Guard sent two ships to the scene and picked up the three bodies a short while after the accident.

Capt. Marshall W. Esslinger, Ft. Eustis, Va., and two other men took the new type craft from Fort Ord yesterday.

MAY CUT FRUIT LOSS

Lafayette, Ind. (AP) — A cheap chemical method of treating fruits and vegetables after harvest to cut down on perhaps \$150,000,000 a year spoilage losses is being worked out by Purdue University scientists.

TORNADO KILLS 21

Karachi, Pakistan (AP) — Delayed reports received here today said a tornado had ravaged 16 village in the Kustica district of east Pakistan, killing 21 persons and injuring 100.

THOUGHTS at 4 A.M.

It's four o'clock in the morning, and all the world's asleep. But one man's head shifts upon his pillow. He looks again at the green-glow of the dial on his alarm clock. He hears the plaintive whistle of a train somewhere in the distance, and the murmur of the wind in the trees. They seem to echo his thoughts.

The thoughts that will not let him sleep.

"What will happen to Janie and the children if anything happens to me? How can I be sure they'll be secure?"

His mind flashes back to the terrifying moment a week ago when a truck shot out of a side road without warning. If he hadn't been able to swerve his car just in the nick of time... what then?

He recalls friends he'd known and newspaper stories he'd read—and all the things that had happened to other people. Things that could have happened to him.

"Am I getting morbid," he wonders, "...or am I being realistic? At any rate, it's high time I stopped just thinking about my family's future and started doing something about it....."

What can he do?

That's entirely up to him... his personal decision.

But there are millions of family men among the 5,500,000 members of The Equitable Life Assurance Society who have faced this same problem... and who have done something about it! They realize that regardless of inflation or deflation, war or peace, fire or flood... life insurance is every man's "best buy."

They also realize that the dollars they pay in premiums for their life insurance do more than just provide protection for their families... because these same premium-dollars contribute in large measure to the overall security of their country.

While earning interest for the members of The Society, these premium-dollars build railroads and factories, finance homes, participate in a score of industries, help maintain millions of people on payrolls, contribute materially to the highest living standards known to man.

Whether you are interested in figures or not, The Equitable's 1952 financial statement testifies to America's faith in life insurance as the basic means of providing for one's family and for one's self... protection that lets a man sleep soundly at 4 A.M.—or any hour—365 nights a year.

So... to the man in the picture above we say, "To be sure your family will be secure, call your Equitable representative today. He is as close as your telephone."

Condensed Statement of Condition as of December 31, 1952

RESOURCES		OBLIGATIONS	
	Per Cent		Per Cent
