"Better Late Than Never," says Glen Smith or I guess it's Smyth instead of Smith. . . . Anyway this fellow they call Smyth down at KGAE was seen Wednesday donning green trousers, green tie and maybe green eyes. . . . Of course this was only 24 hours too late for St. Patrick's day. But like Smyth says, "Better late than never." . . . Maybe Smyth didn't realize Tuesday was the famous day. . . . I bet he thought it was a publicity stunt for cholorphyll.

Television station KPTV probably spent Wednesday following the defeat University of Washington took Tuesday night. If Washington would have won, the KPTV brass would have spent all day Wednesday on the phone clearing network programs.

Oscar Award Telecast Aimed For Tonight's Entertainment

The nation's first telecast of the Academy of Motion Picture Arts and Sciences awards over NBC television on Thursday, March 19, will present ceremonies from both New York and Hollywood, an innovation this year.

Charles Brackett, president of the Academy, announced that Conrad Nagel would act as master of ceremonies in New York at the Hudson theatre where former "Oscar" winners and a number of this year's nominees for top honors have been invited to be present.

Bob Hope will be master of ceremonies for the main Academy Awards ceremony at Hollywood's RKO Pantages theatre.

A nationwide television audience will see the ceremonies in both East and West Coast entertainment capitals during NBC TV's program which will start at 10:30 p.m., EST.

The Academy is cooperating with NBC in every way to organize the award ceremonies as a television program which will combine the excitement of Hollywood's biggest night of the year with star-studded entertainment. Johnny Green, musical director of MGM, is general director of the show for the Academy. Robert Welch, NBC-TV producer, is in charge of the nationwide telecast. Richard Clemmer will produce the New York presentation program which Warren Jacober will direct. William Bennington will be NBC-TV's Hollywood director.

Paul Douglas, stage, screen and radio star, has accepted the invitation of Johnny Green to serve as radio commentator for the broadcast of the show over NBC.

Douglas was one of the nation's top mikes before scoring a hit as an actor in the Broadway production of "Born Yesterday." Following this success, he came to Hollywood, where he is now one of the screen's top stars. He was the radio's top star for last year's Award Presentation program and served as master of ceremonies for the 1949 Awards show.

At least 30 former "Oscar" winners and nominees for the current awards have been invited to NBC's Hudson theatre in New York on March 19. Both Shirley Booth and Betty Davis, nominees for "best actress" award, are expected to be present at this first-in-history New York "Oscar" ceremony.

Servicemen to Hear Awards

American servicemen throughout the world will hear the 25th Annual Academy Awards presentation program over the facilities of the Armed Forces Radio Service, it was announced today by Colonel William Mason Wright, Jr., commanding officer of AFRS. The program will be broadcast direct from the RKO Pantages theatre in Hollywood, on March 19. In this country the event will be carried on the combined facilities of NBC Radio and television.

This is the seventh year that AFRS will shortwave the Academy program to all parts of the globe, with eleven giant transmitters beaming the event to the GI's wherever they may be overseas. The show also will be relayed by some 60 foreign stations for their listeners. This will include all of South America, Japan, Korea, England, Australia, South Africa, India and Germany.

The program will be beamed behind the Iron Curtain by the AFRS station at Bremerhaven and stations of the Blue Danube network, an AFRS subsidiary. The event is to be carried by the northern-most radio station at Point Barrow, Alaska, and by the southern-most station at Pago Pago, Samoa.

It is estimated that the domestic and AFRS broadcasts reach over 91,000,000 listeners. NBC's coverage is expected to reach another 60,000,000 listeners and viewers.

Other Unions to Seek Productivity Raises

Washington (AP)—A railroad labor leader predicted today that unions in other industries will try to match the four-cent-an-hour pay hike awarded to the nation's 1,200,000 railroad workers.

W. P. Kennedy, chief of the Brotherhood of Railroad Trainmen, said he expects the principle of the "productivity" pay hike to be taken up in other industries by "unions who watched the pay decision with keen interest."

"We think the decision will extend productivity beyond the railroads," Kennedy said. "Workers in other industries should be given the same recognition our men got."

Morse Applies for Seat on Demo Side

Washington (AP)—Sen. Wayne Morse, the Oregon Independent who bolted the Republican party, has applied for a seat on the Democratic side of the Senate.

Morse declined to talk about his motives. But he could side with the Democrats in straight party line votes to produce a precarious 48-to-48 balance between Senate Democrats and Republicans.

The one-man Independent party submitted his request to the Democratic minority leader, Sen. Lyndon Johnson (Tex.). If approved, presumably by the Democratic policy committee, he would move from a front row on the GOP side of the aisle to a back seat among the Democrats.

Strike Voted Against Tillamook PUD

Tillamook (AP)—A strike of 27 AFL Electrical Workers against the Tillamook Peoples Utility District is possible.

A union spokesman said the workers authorized the strike after the PUD directors appeared to be delaying too long a decision on whether to make a 5-cent hourly pay increase retroactive. The union wants its retroactive to last July, when negotiations started.

Strike May Shut Coast Electric Service Off

Tillamook, (AP)—Electrical service to some 3500 customers of the Tillamook PUD was threatened today by a strike of 22 union employees. Strike deadline was set for next Monday.

The AFL Electrical Workers union, which represents the employees, and management have agreed upon a five-cent hourly wage increase. Disagreement comes from PUD's refusal to make the raise retroactive to July 1, 1952, when the previous contract expired.
