

Local Paragraphs

**Will Sell Carnations**—Red carnations, the favorite flower it is said, of President William McKinley, who was commander-in-chief under whom the United Veterans of the Spanish-American War served in 1898, will be sold on the streets of Salem Friday and Saturday, April 10 and 11. They will be sold by the auxiliary of the Spanish-American War veterans with the permission of Mayor Al Loucks. Proceeds, the organization announces, will be used for relief and other worthy causes.

**To Exhibit at Portland**—Among 98 Oregon artists to exhibit at the annual "Artists of Oregon, 1953" exhibition opening April 18 at the Portland Art Museum will be Peg Smith, prints, and Martha V. Redd, drawings, both of Salem.

**Townsenders Meet**—A union meeting of the Townsend clubs of Salem will be held at 7:30 Tuesday night at the Mahany home, 345 South 18th street. State organizer F. L. Snodgrass of Portland and deputy E. J. James of Portland will attend. Several items of business are on the agenda.

**Pringle Women to Meet**—The Pringle Women's club will hold its regular meeting at the club house Wednesday of this week. A pot-luck luncheon is to be served at noon and a business meeting will follow.

**Theft of Bricks**—The theft of 1500 bricks from 607 North Commercial street Saturday night, was reported to city police by O. W. Klang, 849 South 12th street.

**Ditches for Cable**—Work was started Monday morning at the local airport on digging the ditches for laying the cable for the high intensity lights at McNary field. Marion Electric has the contract for the installation of the lights.

 Robert L. Jones, clerk, and Evelyn M. Reynolds, 26, clerk-tyrist, both Route 2, Albany.

Ronald Wm. Hamann, 21, U. S. Army, 1803 Blossom Dr., and Constantine Nicholas Bill, 21, clerk, 230 Milston St.

Youth Nabbed At Silverton

A Silverton youth was in the Marion county jail Monday and a Silverton police officer was in the hospital as a result of an attempted burglary of the Silverton liquor store about 3:45 Monday morning.

Richard Paul Rostad, 21, 418 Jersey street, Silverton, was arrested on a charge of burglary after two city officers were called to the scene. A neighbor who heard the crash of breaking glass at the liquor store and saw Rostad at the scene called the officers. No charge has yet been filed on Rostad for a later attack on one of the arresting officers.

Rostad was left at the station in the custody of Officer John Nelson while Officer W. F. Bartlett returned to the scene of the attempted break-in for further investigation.

When Bartlett returned to the station a short time later, Nelson was lying on the floor, unconscious and with a broken leg and multiple cuts and bruises about the face and head. Rostad was still at the scene and apparently had made no attempt to flee.

Nelson was taken to the Silverton hospital where he was reported in satisfactory condition Monday afternoon. He had been unable to talk because of periods of unconsciousness and facial injuries, but officers expected to talk to him later in the afternoon.

Rostad was questioned by Silverton Police Chief Rell R. (Buck) Main, but said he could remember nothing except that he and the officer had hit each other. Everything else about the incident was very vague in his mind, he told Main.

He was turned over to Marion county officers for further questioning and action on the burglary charge.

Stassen Grills Machines Axed At Newport

This is an unusual practice in the case of government officials. It puts a witness in jeopardy of prosecution on perjury charges if he does not tell the truth.

The dispute which brought the first open clash between McCarthy and an administration official grew out of McCarthy's announcement Saturday that the subcommittee staff had negotiated an agreement with Greek owners of 243 ships under which they agreed to break off all trade with North Korea and Red China.

Eisenhower Silent  
 President Eisenhower declined comment on the agreement. The order putting Kenneth Hanson, Stassen's acting deputy, under oath, followed a statement by Francis Flanagan, general counsel for the subcommittee. Flanagan said Hanson had told him earlier the agreement negotiated by McCarthy's subcommittee would cut shipments to Red China by 35 percent.

Hanson denied he had made such an estimate to Flanagan. He said he could not make an estimate. McCarthy halted the hearing and told Hanson: "I am going to put you under oath."

At the insistence of Sen. McClellan, D., Ark., both Flanagan and Robert Kennedy, brother of Sen. Kennedy, D. Mass., an associate counsel of the committee, also were put under oath.

**Jamboree Postponed**—The Gym Jamboree at Leslie Junior High school that was scheduled for Thursday night of this week has been postponed to a later date, it was announced by the school today.

**Niemeyer Home**—R. H. Niemeyer, manager of the Salem Housing Authority, Monday returned to his home from the Salem Memorial hospital, where he had been a patient for two weeks.

Machines Axed At Newport

A second group of slot machines stored in a Salem warehouse went under the axe in a little over a week Saturday when 75 of the illegal gambling devices were taken to Newport to be destroyed by the Lincoln county sheriff.

The machines were taken in a raid on the Delake Amusement company warehouse about a month ago by state police. They were ordered destroyed by Delake Justice Otto Cahill and owner Vernon J. Burroughs was fined \$10 per machine plus court costs. The machines were picked up Friday by Lincoln county Sheriff Guhlsbeck.

Just a week earlier a group of about 50 machines were destroyed at the county dump grounds east of Salem by Marion county officers. They were seized in a raid of a Silverton warehouse and stored in Salem until destroyed by district court order.

**Ask Road Improvements**—A petition, bearing the names of interested property owners, calling for the grading and surfacing of County Road 847, was received Monday by the county court. The road, less than a mile in length, connects Market Road No. 23 and State Highway 222. The court said the improvement could not be made this year since all construction projects of this nature have been set up. In any event, it will await the development of the state's program in connection with the extension of the Santiam highway into the city of Salem.

**Purse Stolen**—The theft of her purse from her car Saturday afternoon, was reported to city police by Mrs. Madge Peterson, 1055 South 13th street. The car was parked near a downtown grocery where she was shopping. The purse contained identification and other personal property.

City Budget

necessity of the job or position itself. Are salaries consistent with, or in proportion to wages paid by other governmental agencies or private industries? Are fringe benefits in line with other municipalities or private industries? Should civil service be given consideration for all employees? How might employer and employee relationships be improved in city government?

In its study the salary subcommittee has found that "salaries of Salem city employees would appear to be in line with salaries paid city employees in the group of larger cities in Oregon."

Much of the committee's recommendation is in line with suggestions made by City Manager J. L. Franzen which would make \$80,485 available by deducting from various department expense estimates, or increasing estimated receipts from some items. Of the \$80,485 it is calculated \$50,000 would be available to salary increases and \$30,485 for the city emergency fund.

Here is a summary of this solution:  
 Additional revenues from parking meters by the installation of additional meters, and by making all meters in the downtown area two-hour meters at 5 cents per hour, eliminating the penny meters. It has been estimated that this amount would probably be \$25,000. Additional meters would be installed on outer State street, in the Hollywood district and the Capitol Shopping Center district.  
 The manager proposes to deduct \$2800 from the airport budget, increase the estimated returns from delinquent tax payments by \$5000, eliminate the proposed 16th street extension through the State Fairgrounds, and thereby save \$22,000, and to lop \$4000 from the drainage fund. It is estimated by the manager that the street lighting item can be reduced by \$1500, and expenses of the fire department cut by \$20,185.

The fire department cut would be arrived at in this way:  
 Reduction of three men from the first aid car, which counting salary, pensions and uniform allowance would be a saving of \$12,111.  
 Reduction of two men in the inspection division of the department, saving \$874.  
 These two items total \$13,015. The plan calls for the first aid car being moved from the East to the Central fire station. The reason for this is that when the first aid men require a helper they take one from the fire department. By taking the man from the larger Central station crew neither station would be crippled too much in manpower. The move has been contemplated for some time because most first aid calls are from west of the Southern Pacific tracks.

Chinese Reds

"It must be pointed out that in advancing this proposal we by no means relinquish the principle of release and repatriation of war prisoners without delay after the cessation of hostilities..." Chou said.

"Nor do we acknowledge the assertion of the United Nations command that there are among the prisoners of war individuals who allegedly refuse repatriation."

Chou said he was advancing his proposal "only because the termination of the bloody war in Korea and the peaceful settlement of the Korean is bound up with the question of peace and security of the people of the East and the world."

At Far East command headquarters, it was said that no formal communication had been received from Chou as far as known. Most officials there adopted a cautious attitude.

A spokesman for Gen. Mark Clark, U.N. Far East commander, said "we are not selling the statement short but so far it is just a Communist radio broadcast."

Some Allied officers said privately and unofficially that the proposal, if it meant what it seems, might end the Korean War.

It is about 90 miles from Key West, Fla., to the nearest point in Cuba.

House Returns

"We have provided for full appeal to the courts," Goodrich said, "and certainly in good government no one state agency should have power from which there is no appeal from its decisions."

Rep. Mark Hatfield of Marion county, chairman of the state and federal affairs committee, pointed out that the growth of boards and commissions in both the state of Oregon and in the Federal government, led to inefficiency in government.

"The Hoover commission, in its report, disclosed that there were 75 agencies with powers of some sort on the same subject, a situation which the commission contended could not result in anything but inefficiency."

Rep. Tom, in opposing the measure contended that the bill abrogates a state policy of protection to fish which has been recognized in this state for 90 years. He termed the bill "special interest legislation."

Another opponent of the bill was Rep. Robert Root who contended that there are three agencies in the state whose decisions are not subject to court appeal—the hydro-electric commission and the fish and game commissions.

"I don't believe that you can correct three wrongs by correcting one," he declared.

Rep. B. A. Stover declared that the main issue in the bill was the right of appeal from decisions of the hydro-electric commission and strongly urged support of the bill.

Rep. Robert Dunaway argued against re-referral of the bill suggesting that the amendments, if necessary, could be made in the senate.

Rep. Layman, who made the motion to re-refer, is a supporter of the bill in its present form.

Voices against re-referral were Reps. Anderson, Baum, Erickson, Chadwick, Deich, Dunaway, Dyer, Eaton, Eastman, Obery, Good, Goodrich, Harney, Hill, Hudson, Hubbard, Jackson, Leary, McKenney, Morgan, Ochsart, Sawyer, Stewart, Stover, Weatherford and Wells.

Voting in favor: Amacher, Cardwell, Childers, Corbett, Dammasch, Davis, Dooler, Elliott, Farmer, Francis, Goodall, Harvey, Hatfield, Jensen, Klumson, Laird, Layman, Mann, Miska, Moore, Roth, Savage, Stover, Stewart, Swinstead, Tom, Wallace, Ziesler and speaker Wilson.

Absent: Reps. Henry Simon, Boyd, Overhulse and Claude E. Hall.
