CIO Strike At Brix Plant

Portland (AP)—With the old contract expired, CIO Woodworkers continued work Thursday, with the exception of one plant in northern California.

Workers struck the Walter G. Brix company, Gerberville, Calif., asserting that the employer tried to reduce overtime pay for last Saturday and wanted some other changes.

Woodworkers' officials, representing some 80,000 workers in five states, conferred here Wednesday on future tactics in negotiations, which continued some time now without gaining an inch from employers. Most employers insist they will grant nothing better than a continuation of the past year's contract.

The Woodworkers have been asking a 22 1/2-cent hourly increase and a six-hour day.
