TO RESTORE PRISON DISCIPLINE

Now that Governor Patterson and the state board of control, the three veteran wardens who made the prison investigation and deposed Warden Virgil O'Malley have all made public their reports in full, the public is better informed of the conditions existing at the state prison which culminated in a change of administration and the appointment of Clarence T. Gladden as warden. Gladden recently retired after 23 years of experience with the federal bureau of prisons.

The three warders making the report togeth E. Beson

The three wardens making the report—Joseph E. Ragen of Illinois, L. E. Clapp of Idaho and G. Norton Jameson of South Dakota—declared that the trouble first stemmed from interference with the authority of the wardens by a senate committee in 1951 who interviewed inmates and granted numerous concessions to them. They were backed up by private organizations which championed the complaints of the trouble-making convicts.

The committee's action, the investigators found, was "a direct slap at the warden's authority and enough to render him useless as head of the institution." Warden O'Malley "should have had things under control in less than a year and a half that he has functioned." But they gave him credit for his efforts in the realm of prisoner classification, education, health and recreation, placing the blame for conditions on lack of discipline. Their report was asked at the same resummarized as follows: summarized as follows:

"Your committee has had many years experience in institutions of this type, and has visited many others, and previously
served on similar investigating committees, but we do not hesitate to state that the degradation, lack of control and general
confusion in the Oregon state penitentiary is without parallel
in our experience. . . We feel the institution can burst into
flaming revolt at almost any moment.

"Last year there was a 91 per cent turnover in prison payroll because guards were beaten-up by prisoners with little
or no punishment, 25 beatings were reported last year alone.
Bootleg pruno flowed among inmates, homemade knives were
frequently found. Homosexuality was rife."

he indirectly supported McCarthy by saying it was the
right of congress to investigate.

WRONG ADVICE

the bitter battle over Ambassador Bohlen. Since then,

In his defense statement, O'Malley said that the three investigating wardens spent only 50 minutes inside the walls of the prison during their three days' investigation. He shifted the blame for many deficiencies on divided control with Superintendent George Alexander, denied some charges and intimated that the entire investigation was "rigged" against him, and no attempt made to verify the charges made by the "parade of witnesses," nor any

The record of the prison speaks for itself for it has been front page news very frequently since O'Malley took charge. He is right on the divided control issue, but the legislature will remedy that. Fifty minutes within the prison tells the story to experienced experts in prison

If the parade of witnesses, guards, etc., testifying as to prison conditions had taken place within the walls of the prison, the prisoners would have known of it and another riot probably follow and fresh demands fesulted, rendering discipline hard to restore.

The board of control has acted wisely in effecting a surprise change in administration—it attained the objective without violence. It is to be hoped that it works out satisfactorily for despite the sobsisters, the prison should not be a country club.

CRACKING DOWN ON G.O.P. MISDEEDS

Some Republicans are doubtless shocked that their own party should so soon be embarrassed by some of the same eamy situations that plagued their rivals, the Democrats, during their long reign and especially during its last few years under Truman.

The national chairman, Roberts, resigned the other plus the cost of building an day, presumably by invitation after a committee representing the Republican legislature of Kansas reported that he had violated the spirit if not the letter of a state law requiring lobbyists to register.

Now Attorney General Brownell has ordered a grand jury investigation of reports that certain individuals have tried to sell postmaster appointments in Georgia. The individuals are not yet identified, but they are presumably either Republicans or pro-Eisenhower Democrats. The other kind of Democrats wouldn't be influential in from the budget in the last 18 choosing postmasters. This recalls similar situations in Louisiana and Mississippi involving Truman Democrats.

We said these situations are similar to recent ones during the "fair deal," and they are, but there is a great difference in the way they are handled, and here we think is a tipoff on what will prove to be a fundamental differ-ence between the Truman and Eisenhower administra-

Where Democratic scandals were allowed to fester and attempts to expose them were regularly blocked by administration officials the Republican derelictions are promptly dragged out into the open and "appropriate action" taken.

The G.O.P. national chairman walked the plank within 24 hours after the Kansas legislative committee reported, and certainly the energetic Brownell wasted no time in getting after those fellows who are reportedly trying to sell postmasterships.

The new administration cannot hope all its supporters will be honest and above board, but if it hops onto every indication of impropriety as it has to date the country will be happy. And there won't be too many derelictions.

White House advisers report that their chief is sore, has stiffened toward McCarthy, and has decided the advice given him by Vice-President Nixon and at first by Taft is wrong. Nixon had believed that the administration should try to get along with McCartity and that McCarthy in turn it would play ball.

This was the same advice given Ike during the election campaign just before his speech in McCarthy's home state. Governor Dewey had inspection made of prison records. He added:

"Furthermore, it is my opinion that it is a highly unethical practice for any committee or board evaluating a report to codemn anyone without giving that person a chance to refute the charges made by a reactionary group of wardens."

O'Malley stated that when he "took over, the charge was group has been eliminated. While inmates are not strictly regimented, they are under control."
