

Woman Takes Her Own Life

Financial difficulties led to a 38-year-old Salem mother taking her own life Monday afternoon, Marion County Sheriff Denver Young concluded after investigation of the death.

Mrs. Edythe Carolyn Casebeer, Route 2, Box 244-A, was at home with her son, David F. Casebeer, Jr., 20, the youth told Sheriff Young, when she went into the bedroom adjoining the living room and closed the door. A few moments later, the son heard the sound of a shot and entered the room to find her with a bullet hole in her chest and a .22 caliber rifle beside her.

She had been despondent for some time over money matters, members of the family told investigating officers.

Survivors are the son; the widower; a daughter, Carolyn Casebeer, 19, Salem; a sister, Mrs. Marie Klesper, Salem; and her mother, Mrs. Neta Gooch, Canton, Ohio.

Funeral arrangements will be announced by Howell-Edwards funeral home.

CHARGED WITH UNION FUNDS THEFT

Joseph P. Ryan, president of the AFL International Longshoremen's Association, talks with newsmen on his arrival at the office of New York District Attorney Frank Hogan. Moments later Hogan's office announced that Ryan had been arrested "in connection with an indictment that charges theft of \$11,890 from the funds of the I.L.A." Ryan, lifetime boss of the east coast longshoremen, had been under grand jury investigation since last January when a state crime hearing brought out he had used union money for personal expenses. Air Medal to Sgt. Sproule

Staff Sgt. William D. Sproule, whose brother, Frederick James Sproule, lives at 985 Garnet street, Salem, has been awarded the Air Medal for his part in aerial flights over enemy territory in Korea from June 23 to November 21, 1952.

The citation that accompanied the medal and was signed by Maj. Gen. E. A. Pollock of the U. S. Marine Corps, read in part:

"For meritorious acts while participating in aerial flight over enemy territory in Korea, while serving with a Marine division from July 23 to November 21, 1952.

"Serving as a crewman, Staff Sgt. Sproule displayed outstanding professional skill and devotion to duty. During this period he participated in a total of 20 reconnaissance and troop support flights in slow, unarmed aircraft at extremely low altitudes over areas where enemy anti-aircraft fire was received or could be expected.

"Mission accomplished during these flights contributed materially to the success of ground operations."

Theoretically, when a pin drops, the earth moves a little to meet it, but because the earth is so much bigger than the pin, the movement of the earth is so small it cannot be measured.

SEXY DISH NOW

This picture marks a milestone in the Hollywood career of English Actress Deborah Kerr, known for her lady-like roles. It's her first "cheesecake" picture and was taken because she's playing a sexy easy-to-get soldier's sweetheart in "From Here to Eternity" who wears shorts and bathing suits in the movie. Williams from Donovan Williams, the plaintiff receiving restoration of her maiden name, Arnold; to Louise E. Billings from E. E. Billings, the plaintiff receiving restoration of her former name, Tussing; to Olliva Worden from Lloyd Worden and to Kathryn Manning from Archie Manning.

Ask Quotas on Nut Imports

Washington (AP)—The department of agriculture was asked Monday to renew its recommendation to President Eisenhower for quotas on imported filberts.

Rep. Harris Ellsworth (R., Ore.) said that Agriculture Secretary Benson has recommended the quotas which would prevent possible "dumping" of some 18 million pounds of nuts on U.S. markets by Turkish growers. He added that the state department is opposing the quotas.

Ellsworth said that if the Turkish growers were permitted to dump their nuts on the American market, U.S. prices would drop and domestic growers would then be entitled to subsidies under the price support program.

The tariff commission under the Truman administration recommended that imports be limited to 4 1/2 million pounds. President Truman rejected the recommendation. The matter then was referred to the new Eisenhower administration.

Briton Laments Big Earnings Of Johnny Ray

Eised, England, (AP)—A clergyman complained today that Johnny Ray earned more money in two weeks of sobbing here than a British farmer can earn in 40 years.

"Something has gone wrong with our sense of values when we are willing to pay such a person in a fortnight a salary it would take a farm worker 40 years to earn," Rev. Frank Parkhouse wrote in a leaflet distributed in his parish.

"He shivers and sighs and even cries," the rector said. "I imagine that is just what the audience should be doing when they realize how they are being fooled."

Ray received \$31,000 for his two weeks of theater appearances.

Rain Making Efforts Begun

Seattle (AP)—Rain-making operations are underway in one of the nation's wettest spots—Southwest Washington. And there's a reason.

As Ferguson Hall, director of the Weather Bureau project, explains it, Southwestern Washington was chosen for the experiments because of the large number of rain clouds which roll in off the Pacific ocean there.

Navy two-engined PV2 patrol planes from San Point Naval Air Station are expected to log about 1,000 hours while seeding the soupy skies.

The meteorologists will seed the clouds with thin particles of dry ice. The ice particles attract thousands of tiny water drops. These turn to snow flakes and become rain as they fall.

MILITARY MEN AND VETERANS

Thursday, April 16

Organized Naval Reserve surface division, at Naval and Marine Corps Reserve training center.

Battery D, 722nd AAA AW battalion, at quonset huts on Lee street.

Company D, 162nd regiment, Oregon National Guard, at Salem armory.

Alken at Desert Rock

Camp Desert Rock, Nev., April 14—Among the over 2000 Marines here now at the Atomic Energy Commission Proving Grounds for the latest series of atomic tests is a Salem, Oregon, Marine, First Lt. Robert P. Alken, son of Mrs. George Alken of 1175 East Street, Salem. The lieutenant is a member of a battalion of Marines from Camp Pendleton.

Observer Openings

Word had been received by Maj. Roy W. Remington, commanding officer of the 9414th volunteer reserve squadron, that the Air Force has increased its quota for aviation cadet aircraft observer training.

This field includes jobs in bombardment, navigation, radar and flight engineering and graduates are commissioned second lieutenants in the Air Force reserve. The training received will qualify men for top jobs in the electronics field in civilian life. It includes two phases, basic with approximately 216 hours of instruction, and technical, which is about 850 hours. Following this the cadet has 70 hours of flight training in 17 field missions.

Among the subjects studied are airmanship, weather, radio, combining gunnery, photography, electronics, radar scope interpretation and long-range navigation. When the cadet graduates he begins earning up to \$544 monthly immediately, is given a \$250 clothing allowance and free government insurance amounting to \$10,000 coverage. Men must be between the ages of 18 and 28 1/2 years, have at least two years of college and meet physical requirements. More information on the openings can be received from headquarters of the 9414th at the ORC armory on the airport road.

YOU CAN LOOK YEARS YOUNGER Just 6 Weeks From Today

WITH FIRMER, MORE YOUTHFUL CONTOURS—SMOOTHER, MORE RADIANT-LOOKING SKIN

The Revolutionary Aralinn Contour Corrective Treatment Takes Just 10 Minutes a Day

This is no idle promise. Within a week after starting this truly sensational home beauty treatment developed by Marie Earle, you will notice a great improvement in your appearance. In six weeks time the change can be startling and truly wonderful.

Only the Aralinn Method does a double job for beauty—working to firm and correct the contours at the same time it beautifies the skin.

Don't Stop Half-way

There are many fine beauty preparations that help your skin look softer, smoother, younger. But that is only half the job. There's still the problem of the inevitable sag of aging, relaxing muscles.

To look really younger, requires, firm resilient contours of face and chin and neck. And no cream or lotion alone can change your contours, but Aralinn and its simple method of application wakes up lazy muscles, "picks-up" sagging contours, improves skin texture.

You'll love Your looks

Just 10 minutes a day, that's all the Aralinn Treatment takes. And within a week of prescribed daily treatments, you'll be looking at yourself with new admiration, you'll notice such an improvement, such a new feeling of tingling aliveness. So, don't stop halfway, don't be satisfied with just a nicer, younger looking skin... correct your contours, too... go all the way for a more youthful beauty balance... with Marie Earle's simple, sensible Aralinn Contour Corrective Treatment.

Aralinn is \$5.00 a bottle, a set of 4 bottles sells for \$15.00—plus tax, of course.

COMPARE scrubbing clothes in China

with the ease of doing the laundry here...

Water carrying, back bending, scrubbing and scrubbing until both the woman and the clothes are worn out... this drudgery is the fate of most all the women of far-off China. The clothes are laid on the ground or thrown over bushes to dry, and the job of ironing—if it is attempted at all—is done with a crude, heavy hand iron heated over a makeshift stove.

Picture it—and compare it with the magic of an electrical washday!

The modern PGE homemaker has an abundance of hot water at the turn of a tap. Clothes are popped into the automatic washer and with one flip of a switch they are washed, rinsed, and damp dried. Into the electric dryer they go to emerge all dry and fluffy in a matter of minutes, ready to be put away or ironed on the electric ironer.

Yes, electrical living is gracious living. It saves hours of back-breaking work for just pennies a day.

Make sure there's an automatic electric laundry in your family's future!

REMEMBER...
It's an electric bill... not just a light bill

Turning lights is just one of your electric servant's many duties. He cooks, freezes, heats water, washes, dries and helps to iron the clothes, does the dishes, mixes, toasts, and a host of other things—and ALL for just a few pennies a day. Honestly now, what else gives you so much service for so little cost?
