

Bridge Game Called Cinch

Contract bridge is a cinch, according to Sam Gordon, the kibitzer, who will be here for a series of contract bridge lesson-lectures Tuesday, Wednesday and Thursday of this week. He will appear in Columbus hall, North Cottage and Shipping and is sponsored by the Knights of Columbus and the Catholic Order of Forerresters.

He says the only aim of the partners in a bridge game is to tell each other how many tricks they expect to take; and what is their best trump suit, if any; and that's all. And to give that information, a player need not be a civil engineer, a statistician and a clairvoyant.

All they need is to learn the few basic rules to play an acceptable bridge game.

His method of counting tricks is the natural way any player would use if he were not confused by too many suggestions. You merely total up your aces, kings, queens, and the tricks you expect to trump. All other departments of the game are treated in the same vein of simplicity.

Recognition of Jersey Herd

Three registered Jersey sows in the Westwood Jersey Farm herd, owned by H. Mikkelsen and Son, Route 1, Woodburn, have received special recognition for their outstanding production records made on Herd Improvement Registry test.

The cows and their official records are as follows: Westwood Lad Empress, 9,908 pounds milk with 652 pounds butterfat at the age of 3 years and 6 months; Westwood Lad Cleo, 8,434 pounds milk containing 484 pounds butterfat at the age of 3 years; and Westwood Lad Poppy, 8,497 pounds milk containing 540 pounds butterfat at the age of 3 years.

In terms of production records made at a mature age of 6 years on a twice-daily-milking, 305-day basis, these records all exceed 550 pounds butterfat. The official tests were made under the supervision of Oregon State college for The American Jersey Cattle club, Columbus, Ohio.

Snow and Cold Pay Return Visit to East

(By United Press)
Winter made a strong comeback today as special snow and cold wave warnings were issued for parts of Kentucky, Tennessee, Pennsylvania and New York and high winds swept the Southwest.

Snow started falling in Pennsylvania, New York and Ohio and weather forecasters said it would continue to pile up during the day and into tonight.

The unseasonable cold snap was caused by a mass of cold Canadian air moving southward out of the Dakotas. It was also expected to force down temperatures in the Midwest, where the weather was already chilly.
