

Polk County Homemakers Plans at Rickreall Ready

Final plans for the seventh annual Polk county homemakers' festival were announced today by Mrs. Roy Nelson, chairman of the Polk county home extension committee.

Registration will begin at 9 a.m. on May 7 in the Rickreall grange hall.

The program will begin promptly at 10:00 in the auditorium of the Rickreall grade school.

Some of the highlights of the festival will be a color movie taken in Polk county showing the home extension program, a set of color slides, a fashion show, a skit, "Greeting from Oregon State College," and a speaker.

Mrs. Viola Shaffer Wells of Denver, Colo., a former Polk county extension agent, will be the commentator for the style show. Approximately 50 garments made by extension members will be modeled.

Mrs. Monroe Cline of Independence has taken a color movie for the Polk county extension service. More than 100 Polk county extension unit members have taken part in the production of this movie, which shows some of the outstanding events in the home extension program during the year.

Mrs. Malno Reichert, Polk county extension agent, will show a set of color slides taken during the year. More than 250 Polk county women have had their pictures taken for this set of slides.

The Airle-Suver unit will present a humorous skit, "Workshop Worries." This skit will present some of the difficulties encountered when the extension tailoring workshop had to share the same room with the Polk county well baby clinic.

The noon luncheon will be served in the Rickreall grange hall by the home economics club of the grange.

Child care and lunch will be provided by the grange ladies for a small fee.

A special invitation is issued by the Polk county home extension committee to all the ladies in other counties, says Mrs. Nelson.

The Polk county homemakers' festival is open to the public and everyone is invited.

NEW HORMONE

Dr. Nathaniel I. Berlin (above), research medical physicist of the American Cancer Society, announced discovery of a new hormone at Berkeley. Discovery was made by five scientists at the University of California. (UP Telephoto)

Communists Soviet Puppets

Washington (AP)—A government board Tuesday branded the U. S. Communist Party as "a subsidiary and puppet of the Soviet Union" and ordered the party to bare its membership lists and give financial accounting.

The order is subject to review by the courts.

The four present members of the Subversive Activities Control Board agreed unanimously that the party "is substantially directed, dominated and controlled" by Moscow.

The party, the board said, "operates primarily to advance the objectives" of a Russian-directed world Communist movement.

The board's order was issued almost 19 months after former Atty. Gen. J. Howard McGrath started a registration proceeding against the party.

Indications are that it will be a year or more before the Supreme Court has the final say on constitutionality of the 1950 International Security McCarran Act under which the board acted.

Denies Challenge to Duel Over Woman

Frankfurt, Germany, (AP)—U. S. Army sociologist Blondell E. Groseclose pleaded innocent today to charges he challenged an American Army captain to a pistol duel for the love of a pretty German woman.

Groseclose, 39, a native of Idaho where he said "we have our own code on the frontier," pleaded innocent also to two secondary charges of threatening to kill his rival and the woman.

He was accused of handing a pistol to Capt. Charles D. Tarpley, 35, of Henderson, Tenn., and challenging him to a duel to the death for the hand of petite Dr. Margarete Meyer.

Three Injured When Two Autos Collide

Albany—Three members of a Vancouver, Wash., family suffered minor injuries Sunday when their car struck another at the Millersburg crossing on Salem road. Hurt were Mrs. Einei Egbert and two children, David and Nancy.

Mrs. Egbert's husband, Melvin B. Egbert, according to information procured by state police, was driving north behind a car driven by Robert Carter Hamilton, RFD 2, Albany, and the collision occurred when Hamilton started turning left.

Mrs. Egbert was the only one of the family treated at the Albany General hospital, but she was not detained there.

Weather Favorable For Spittlebug Pest

Warm weather last Sunday will remind strawberry growers that rapid growth of strawberry plants will be followed by spittlebug development. Although the amount of spittlebug damage cannot be forecast, the average grower should prepare for spittlebug control every year.

Past experience has shown that spittlebug nymphs hatch as the fruiting spurs are unfolding. As the nymphs enlarge, they secrete the protective masses of spittle which accounts for the name, spittlebug. Effective control depends upon applying poisonous dusts before the nymphs have much protection from the spittle masses.

The amount of spittlebug injury may vary within the field or between fields. For this reason, it is important that each strawberry grower make frequent spot checks in his field for spittlebug activity.

Britons Released in Korea Leave Moscow

Moscow, (AP)—A Royal Air Force transport plane carrying six Britons and an Irish priest liberated after long internment in North Korea took off here today for Berlin, Germany, en route to England.

The seven liberated internees arrived here yesterday by train at the end of a long trek across Siberia. North Korean authorities turned them over to the Russians April 8 after the Soviet Union agreed to a British appeal to use its good office in obtaining their repatriation.

Oregon Electric Train Makes Last Run Today

Portland, (AP)—Another of Oregon's few electric lines closed down Tuesday.

The Pacific Northwest Electric Railway Association said it was converting its electric line serving Gresham and Boring to a diesel operation.

The last electric train is to leave Portland at midnight Tuesday.
