

### Fellowship to Tom Bartlett

Tom Bartlett, son of Mr. and Mrs. C. W. Bartlett, 1980 North 24th Street, has been awarded an honors fellowship for study in political science at Stanford University. He will begin work next September on his Ph. D. in the field of political science, specializing in international relations.

Bartlett is a graduate of Salem high school, class of '47. His first two years of university work were at Willamette. He transferred to Stanford for his last two years of undergraduate work, receiving his B. A. in 1951. During his senior year at Stanford he was awarded a Rhodes scholarship for two years work at Oxford University.

In June he will have completed the normal three-year course in the Honor School of Philosophy, Politics and Economics, in two years. During his stay on the other side of the Atlantic Bartlett has traveled through most of the countries of Western Europe, including a tour which extended from Amsterdam, Holland, to

Athens, thence back to England, on a motorcycle. At present he plans to travel in Spain before returning to Salem in August for a short vacation with his family before returning to Stanford.

In the summer of 1951 Bartlett was a member of the United Nations internship program in New York. Later, during the 1951 General Assembly of the UN in Paris he was present as an observer for most of the sessions. His parents say that at present he plans to do his doctoral dissertation on some phase of United Nations activity. While completing his studies at Stanford he will also be acting as an assistant in the political science department.

### Patterson Signs Civil Rights Bill

Gov. Paul Patterson has signed into law the so-called civil rights or anti-discrimination bill passed by the 1953 Oregon legislature.

The bill was one of the most debated in the 1953 session, and finally passed both houses without a referral clause although an attempt was made, first in the senate and then in the house, to tack on a referral clause.

There has been some talk that a move might be made to have the measure referred by petition. It did not carry an emergency clause and therefore does not become law until 90 days after the close of the legislative session — or about July 21.

Rumors rampant around the capitol corridors before the legislators went home were that hotel operators might sponsor a referendum petition.

But the legislators also heard that several hotel and motel operators favor the bill. Those operators told committee members studying the measure that they, themselves, had no prej-

### Population Not License Basis

Population of a city or county does not necessarily determine the exact number of liquor-by-the-drink licenses to be issued in that locality, the Oregon liquor control commission said this week in answer to inquiries regarding distribution of dispenser licenses.

Although the law limits the number of premises selling or serving distilled liquor to not more than one per two thousand population, this restriction applies to the state as a whole. The distilled liquor control act does not limit the number of licenses which may be issued in a city or county, and the new dispenser privilege will be issued according to each community's needs.

Sentiment in some areas is more "dry" than in other areas of similar population, according to the commission, and fewer licenses are required to satisfy the demands of the residents.

Not more than 760 premises may be licensed to sell or serve distilled spirits, this including

the 540 public restaurants and private clubs already licensed to mix and serve liquor from customers' bottles. However, inasmuch as the limitation applies to "premises", each of the 540 will account for only one of the 760 limitation, whether holding just one license or a dispenser license plus a restaurant or club license. Of the remaining 220 licenses, 114 will be withheld for future licensing, leaving 106 for current distribution.

First liquor by-the-drink becomes operative May 11, the commission said.

### Purge Peace Books On in East Germany

Berlin (AP)—The Russian zone government is purging East Germany's libraries, chiefly to weed out such "pacifist" books as Erich Maria Remarque's "All Quiet on the Western Front," the U. S. high commission reported Tuesday.

Four leading East zone librarians have fled to West Berlin in the last three weeks in protest against the Communist action, it said.
