

Suit Filed by 3 Fishermen

Clifford J. Eberhart, George Bachman and John Whiz Tuesday filed a complaint in the Marion county circuit court seeking an injunction against the state fish commission from enforcing a certain portion of the state fish code dealing with areas of water above Bonneville dam.

The plaintiffs, who state they gain their living from fishing, claim that the state fish commission's Order No. 18 is unconstitutional, in that it grants a special privilege and monopoly to a certain class of citizens. The latter are listed as drift or gill net and dip net fishermen who are engaged in commercial fishing in waters of the Columbia river below Bonneville.

Order No. 18 provides, among other things, that it shall be lawful to fish "in the lawful areas or waters above Bonneville dam from noon May 13 to 6 a.m. June 9, from 6 a.m. July 9 to 6 p.m. July 31, and from 6 a.m. August 14 to noon August 26."

Plaintiff John Whiz is authorized by virtue of Indian treaty rights to engage in commercial fishing during lawful periods by the use of dip nets in the area of Cello Falls.

Several speakers will be present, including A. C. Heyman of Albany who will explain the proposed six county PUD.

The Woodburn local will be chairman of the host locals, assisted by the Gervais, Arbor Grove, Keizer and Brooks locals. Members are asked to bring either cake or cookies.

Some of the older ships in the British navy are still decked with teak.

California Drives on Jobless Chiselers

Sacramento (AP) — James G. Bryant, state director of employment, today ignored a demand for his dismissal and went ahead with plans for a new drive against unemployment insurance chiselers in California.

Acting after a legislative committee concluded illegal payments amounted to millions of dollars a year, Bryant announced that an expanded program of fraud detection and prevention will be under way "full blast" within 30 days.

The federal government, which controls administrative funds, authorized the department Monday to spend \$25,000 between May 1 and June 30

and to divert up to \$25,000 from other activities to go after chiselers in the next 14 months.

Bryant, who has 25 investigators now, said he is acting immediately to recruit 36 more. His office said a decision will be made in a day or so where the anti-fraud teams will begin their audits.

Hiram W. Johnson III of San Francisco, a former member of the department's policy-making board, demanded Bryant's ouster in a letter Monday to Assemblyman Harold K. Levering of Los Angeles. He recommended that the department shift its emphasis from insurance paying to job finding.

Asked for comment, Levering, a member of the assembly sub-committee which investigated chiseling, told a reporter that if he had anything to say about it, Bryant would have been fired long ago. However, he added, "That's the prerogative of the governor and not the legislature."

Hotel-Motel Men to Meet

Further preparation for the tourist and convention season will be made when owners of hotels and motels of Salem and community meet in a conference at 7:30 next Tuesday night sponsored by the Chamber of Commerce.

The meeting was dated when their representatives met Tuesday at the Marlow hotel with William H. Hammond and W. W. Chadwick, respectively, chairmen of the conventions and tourist departments of the chamber.

Among plans is a directory showing Salem's facilities for housing convention delegates, convention dates, and rooms that are available in the city outside of the regular hosteleries. It is planned that the Chamber of Commerce be a clearing house for information.

The convention committee of the chamber will be enlarged to include representatives from most businesses and civic organizations. Stressed also will be the listing of speakers to appear before Salem organizations in the interest of more conventions to be hosted by Salem.
