Radio-Television
By DAVE BLACKMER

TELE-VIEWS wishes to extend a hearty "Best of Luck" to Radio Station KGAE in their Big Show for Blood program Saturday. KGAE is going on the air Saturday from 7 a.m. to 7:30 p.m. and try to get \$5500 in donation and contributions for the American Red Cross Blood campaign.

Jim Dandy and Spider MacLean will handle the mike for a solid 21 1/2 hours Saturday. Regular KGAE programs and commercials are being tossed out the window to bring this on the spot program from State and High Streets in downtown Salem.

Three telephones will be ready to receive calls from the public. Long distance calls from the valley points will be accepted also. Talent for the program is still needed as KGAE is still taking applications for Willamette Valley talent to appear on the show.

Serveral state and city officials will be on hand for interviews and also Mary Pickford.

Hal Davis, station manager of KGAE conducted a similar program in Seattle over station KING. The object in Seattle was to raise \$15,000 for the Seattle Orchestra and they did it. If Hals luck is that good in Salem the station should come up with the \$5500 needed.

Again we wish to express the Best of Luck to the gang at KGAE for their program Saturday. I hope the readers of TELE-VIEWS will respond to their call Saturday . . .

British Duke Buys Island In Frazier for Industry

Chester, England (AP)—The Duke of Westminster, one of Britain's wealthiest peers, has confirmed purchase of a British Columbia island to create a multimillion dollar industrial site.

A statement issued by the duke and his advisers said Wednesday he will use his personal fortune to develop the 1,200-acre Annacis Island in the Fraser Valley for development into a \$150 million project.

At Vancouver, Tuesday, Gilbert J. Hardman, British Columbia representative of the duke, announced that the island had been purchased and said its development would go ahead as soon as possible. "You can imagine the project as big as the whole downtown district of Vancouver," he said.

The duke's announcement said: "We must be prepared to accept building applications from anyone, of course, but we feel it is necessary to give every encouragement to those wanting to crash the North American markets and expand them, they must establish plants in Canada.

The proposed development would diversify industry, with emphasis on manufacturing, and including light, medium and heavy industry. Factories would be built by the group and leased or rented to tenants. The first factory is planned for 1954.

In the meantime, a \$150,000 causeway, 2,000 feet long, will be built from the island to the shore of the Fraser to carry rail and road traffic.
