**Frank Stacey, Jr., Suffers Fatal Burns**

Relatives in Salem have received word of the death at Wood City, Cal., of Frank Stacey, 12 years old, caused by burns two days before his mother arrived home from Klamath Falls where he had been in serv-

State highway employes Robert McGrew and Al Mauck check the elevation of the double deck span of the Center street bridge to be lifted six feet and five inches at its eastern extremity. The span weighs 830,000 and is being raised by Moore Drydock, subcontractors, using hydraulic jacks, each with a lifting capacity of 100 tons. The span had been lifted 28 inches when the photograph was made.

Mrs. Stacey, the boy's mother, was formerly Jean Pound of Salem, daughter of the late Dr. B. F. Pound and Mrs. Pound. The grey squirrel is such a pest in England that there is a law against keeping one alive.
