Here's a hint for better steering from boys who built racers last year. Make a drum on your steering shaft or enlarge the shaft in some way to about 1% or 2 inches where the cable is wrapped around it. This gives the best around it. This gives the best around it. is wrapped around it. This gives the best and easiest steer-ing. If you use too small a shaft ing. If you use too small a shaft or cable drum, you have to turn your steering wheel too far to change your steering. If you use too large a drum, it makes your steering too touchy.

Incidentally, fellows, a little warning from the inspectors.

Notice to Septic Tank Owners

There's nothing more simple than a septic tank—when it works! And there's nothing more embarrassing than a septic tank that doesn't work! Usually there are two reasons why they stop-up and overflow—first, because the tanks are not cleaned at proper intervals, secondly, toilet tissue that does not readily disintegrate may clog the dr'ins and force may clog the dr ins and force them to back up!

Few toilet tissues are made with the septic tank problem in mind. The one that is—MD Toilet Tissue — is scientifically processed so that it absorbs water completely and quickly. Try it in a glass of water and see for
