

Beans and Eggs

Hot, hearty pork and beans go deliciously with deviled eggs for warm weather feasts. Have them at your next porch supper or beach picnic. Tote the beans in a covered casserole. For the deviled eggs, give an extra zip of flavor by mixing deviled ham with the usual egg yolk filling. Count on generous helping of beans and at least 2 eggs per person.

Crunchies Liked on Warm Day

Maybe it's tea time, perhaps the coffee hour, but for most of us there comes a time during the day when we crave a hot beverage and something sweet to eat. Here's a recipe to keep in mind. Cookies which require 20 minutes baking and are delightful served warm. Your family or guest will appreciate the crunchy sweet topping. And unless you tell, they'll never guess it's made with cereal. Though it appears to be toasted coconut, it is actually corn soya shreds, combined with cinnamon and sugar and baked on top. It's rich tasting and delicious, just right for afternoon refreshments.

- Cinnamon Crunchies**
- 1 cup sifted flour
 - 1/4 teaspoon salt
 - 1/4 teaspoon cinnamon
 - 1/3 cup shortening
 - 1/2 cup sugar
 - 1 egg yolk
 - 2 tablespoons milk
 - 1/4 teaspoon vanilla
 - 1 egg white
 - 3 tablespoons sugar
 - 1/4 teaspoon cinnamon

Casserole of Beans, Meats Tasty One

Make a big casserole of beans seasoned with meat as the main dish for a day-before-pay-day party. Serve it with a crackling cold salad and plenty of coffee. Have some bread to toast over the coals and red, red watermelon for later. Our idea of a perfect party, pay day or any day. One of our favorite before-pay day casseroles is made with large dried lima beans cooked with a chunk of salt pork and a clove-studded onion. Then we put the cooked limas in a large baking dish with a can of kidney beans, sliced onion, a can of tomato soup and diced leftover ham. Season with a little brown sugar and mustard, and bake for about an hour. The contrast of the blond limas and red kidney beans is colorful and appetizing.

Class I railroads in the U. S. include virtually all but terminal systems.
