Woman Ends Solo Voyage

Miami, Fla. (AP)—A smiling, blue-eyed widow rested and caught up on her correspondence today aboard the 23-foot yacht Felicity Ann after a 15-month voyage alone across the Atlantic.

Mrs. Ann Davison, 38, arrived in Miami yesterday to become the first woman to make a solo voyage from England to America in a tiny sailing craft.

The trip began at Plymouth, England, on May 18, 1952, and Mrs. Davison estimates she traveled 8,000 to 9,000 miles by sail and auxiliary power to reach Miami.

She still wore a wedding band given here by her late husband, who was swept overboard and lost at the start of an Atlantic voyage four years ago.

Mrs. Davison plans to continue her voyage to New York aboard the Felicity Ann. She will return to England in October to write a book.

Unemployment Up

Albany—Seasonal and other unemployment in western Linn county continued at a level higher than usual during July, but most of the unemployment is attributable to an increase in the labor force rather than to a large reduction in the number of total jobs, a report issued by Eldon G. Sloan, manager of the Oregon state employment office here, revealed today.

More Vehicles

Albany—Linn county ranks eighth among Oregon counties in number of passenger cars, buses, trucks and motorcycles registered with the secretary of state's motor vehicle division during the first six months of 1953, according to figures received here Tuesday.

Through the county increased its total by nearly 1,000 vehicles, the number seven county, Washington, did the same to maintain its edge.
