

### Election Aug. 17 At Hazel Green

Hazel Green—School District No. 65 will hold a special election at the Hazel Green school on Monday, August 17, between 2 p.m. and 8 p.m., Pacific Standard Time.

The sole issue at the election is whether or not to approve a bond issue in the amount of \$94,000 for the construction of a new school, the actual building of which will begin on or about June 1, 1954, and would be ready for occupancy at the time of the ensuing fall term.

It has been proposed that the location of the school would be upon a five-acre tract now belonging to Dorothy Zielinski, which is located approximately one-half mile east of the Van Cleve road intersection on Hazel Green road. It is approximately one mile west of the present location, and is on the south side of Hazel Green road.

It is necessary in order that the school district receive the state school support funds that there shall be five acres on the new school site.

James Payne of Salem has been selected as the architect, and the school board has approved a tentative plan which calls for an exterior brick veneer finish, with cedar or redwood stained siding.

The interior would include four class rooms and other offices and utility space, as well as a cafeteria dining room. The interior would employ the latest theories of bilateral lighting, and the school would be one of the finest of its type in the valley.

In order to provide for the overflow attendance at Hazel Green school the board is renting a concrete block building for the 1953-54 school year from Mr. and Mrs. Bowlsby. The space limitations are acute. However, with the approval of the bond issue school problems in the district would be solved for many years to come.

### Outing at Yosemite Park Enjoyed by Chemeketan

The Chemeketans, staging their 23rd annual outing at Tuolumne Meadows in the Yosemite National park, "never had it so good," judging by information contained in a letter from Edith LaBorde, a member of the party.

In the first place, they have a new dining tent, which is far more satisfactory than tarps previously used. Then the hikers are enjoying the luxury of shower baths. So instead of taking "spit baths" after a long day of hiking, they may drive a mile or so to Tuolumne Meadows high Sierra camp and take a shower.

Another feature has been the variety of menu offered by Chef Burt Crary. This has been possible due to the fact that a grocery store at Tuolumne Meadows stock the items desired. So the campers have been eating roast beef, roast lamb, roast turkey and baked ham, with even greater variety in prospect.

"Of course, hiking is the drawing card for most of the outing members," writes Mrs. LaBorde. Eight members returned Monday afternoon from a two day trip to ogelung high Sierra camp. Guide books had described that area as offering some of the most superb scenery in the park. The hikers agreed. Four of the group, Margaret Peper, Bernice Lehrman, George and Edith LaBorde, climbed Mt. Vogelsang, 11,511 feet high.
