

School Sept. 8 At Mill City

Mill City—Mill City schools will open Tuesday, Sept. 8, according to Vernon S. Todd, superintendent. Registration will start Friday, Sept. 4, from 9 to 12 a.m. for both the high and elementary school. High school students who are working may register from 7 to 9 Friday evening. Mr. Todd reminded parents that first graders must have their health examination sheets and birth certificates when coming for registration, and must be 6 years old on or before Nov. 15.

Classes will start at 9 o'clock Tuesday, Sept. 8. However, there will be no school Thursday and Friday of that week because of teachers workshop. The school cafeteria will again be under the supervision of Mrs. Bert Morris, assisted by Mrs. Ed Cooke and Mrs. Ernest Podrabsky. A plate lunch will be served for twenty-five cents and meal tickets may be purchased at the school office.

A number of improvements have been made this year at the school. The play and parking areas have been surfaced, a new drainage system has been installed, new playground equipment and bicycle racks purchased.

The athletic field has been enlarged 50 feet on the east side, the district purchasing the property from Herbert Schroeder. The high school shop has been enlarged and new equipment purchased, providing for an increased program in industrial arts. Portland architects are working on plans for the new high school gym, with construction planned for later this year.

C. G. to Warn Water Skiers

Seattle—County and federal authorities, alarmed over the growing danger of water skiing mishaps in the Wheatland ferry area 10 miles down the Willamette from Salem, have dispatched a Coast Guard patrol boat from Portland to warn week-end water-skiers away from the ferry's hazardous underwater cable.

Although normally submerged to a safe depth, the cable rises towards the surface as the ferry travels along its length and is pulled above the water in front of and in back of the ferry. It is here, officials warn, that the greatest danger occurs for skiers and small boats attempting to cross over the cable area.

For this reason, they urge all water skiers and people operating boats in the vicinity of the Wheatland ferry to exercise extreme caution when the ferry is operating.

The Coast Guard patrol boat will be sent up to Wheatland each week-end to patrol the ferry area and to assure that sports enthusiasts are aware of the hazards.

The blaze started shortly before noon from an undetermined cause.
