

DIRECTOR

Mrs. Clara V. Thompson, who has been named director of dormitories and counsellor at the Oregon College of Education at Monmouth.

Traffic Deaths Heavier on Highways Than City Streets

Four times as many traffic deaths occur on the open highways as on congested city streets, according to the state's traffic safety division.

Figures released by the division Wednesday show that 80 per cent of the 460 victims of fatal accidents last year died in mishaps that took place outside the limits of any incorporated city or town.

More than 75 per cent of such mishaps were traceable to a driver error, a factor also noted most frequently in city fatalities.

Excessive speed is listed as the most common driver mistake in rural death crashes, with driving on the wrong side of the road next.

Even normal highway cruising speeds vastly increase the chances of a fatality if an accident should occur, the safe-

ty division pointed out. Between 20 and 30 miles an hour, about one accident in every 316 is fatal in Oregon, the records show. But between 50 and 60 miles an hour one in every 31 accidents result in death.

City streets, however, produced more than twice as many accidents as rural roadways. Last year there were 50,466 urban accidents reported, compared to 21,923 in rural areas.

Wilson Seeks to Get Back on Police Force

Arch L. Wilson, who was released from the Salem police force a year ago for medical disability has filed a petition with the city Civil Service commission to reconsider his case.

Wilson was injured by a vehicle while making an arrest in 1950. He was under medical care for five weeks after which he returned to the force and served until June 31, 1952, when he was released following a physical examination.

Consideration of his case will be given at the next meeting of the commission.

Silverton Water Problem Eased

Silverton—Due to the water users of Silverton complying with the request of Robert Borland, city manager, to irrigate only every other day, the reservoir is gaining height with the water surface past the danger point should there be a fire.

However, since the weather is remaining dry and very warm, the plan for using water is to remain on even days of the month for even house numbers, every other day, and for odd house numbers on odd days of the month.

The volunteer firemen responded to an early evening call Tuesday to the Ferguson home at the end of North First st., where they were able to keep in control a grass fire without damage resulting.

WHAT DO YOU KNOW?

- How much spare time must you spend in the Army Reserve to guarantee a lifetime income for yourself and family at age 60?
- Only 15 days at summer camp plus 40 hours in additional Reserve activities every year.
- How much retirement pay is it possible for you to get?
- It can be \$90.00 or more a month for the rest of your life!

YOUR COUNTRY NEEDS YOU! GET ALL THE FACTS!

Henderson New Red Cross Man

Dallas—Mrs. F. M. Henderson of Dallas will assume the duties of executive secretary of the Polk county Red Cross chapter on Sept. 1, according to Woodrow Jones, chapter chairman.

Mrs. Henderson came to Dallas in April when her husband was transferred here as district warden for the State Forestry service from the Central Oregon district at Prineville. While in Prineville, Mrs. Henderson was acting administrator and caseworker for the Public Welfare commission for Crook and Jefferson counties. Several years ago she was a caseworker for the Benton County commission at Corvallis.

The chapter office will continue in the city hall at Dallas. Hours will be from 9 to 12 and from 1 to 5 p.m. Monday through Friday, unless it is necessary to be out on home service calls or meetings in connection with the visits of the bloodmobile unit. Where possible it is suggested that telephone appointments be made by calling the office number 3458. Mrs. Henderson will accept telephone calls of an emergency nature at her home after 7:30 p.m. The number is Dallas 2814. She is a licensed radio telephone operator which could be a valuable service in the event of disaster or civil defense emergencies.

Mrs. Henderson takes the place of Mrs. Lillian F. Bilyeu who resigned last March after five years as executive secretary and who will become chapter treasurer as of September 1, succeeding Mrs. A. B. Starbuck, who has resigned that office.

Another appointment announced by Mr. Jones is that of Henry B. Coleman of Dallas as chairman of the blood program. He replaces J. N. Urness, who was chairman for nearly two years and accomplished a

HUNGARY FREES BRITON JAILED AS SPY

great deal in recruitment of blood donors and operation of the unit visits. The unit will be in Dallas on Sept. 6, at the Christian church between the hours of 3 to 7 p.m. Blood is still needed, the quota for this area is 10,000 pints per month, which includes blood for the military, especially service men in hospitals; provision for gamma globulin for polio serum and supplies to the 80 hospitals in this regional blood center. Telephone 3458 or 3782 for your appointment.

JAPAN TO GET JETS

Tokyo, (P)—The Nippon Times Thursday quoted a "reliable Japanese government source" as saying the United States has offered "50 to 70 jet planes for training purposes as part of the proposed mutual security aid to Japan."

At 50 miles an hour a driver sees 14 per cent less than at 45 miles an hour.

Salem Man Low BPA Contract

With a bid of \$13,190, Mike B. Porter of Salem appears to have secured the contract for clearing the right of way for the Crabtree-Albany section of the Detroit-Albany 230 kv transmission line, according to the Bonneville Power administration.

The project will extend 16.7 miles from tower 180 on the Lyons-Lebanon line, at a point about three miles east of Crabtree, to the Albany substation southwest of Albany. The right of way is to be 125 feet wide

and approximately 50 per cent of it requires clearing. The contract winner will be permitted to sell merchantable timber.

Second low bid was that of Everett, Wash., \$13,940.

GAS THEFT CHARGED

Albany — A 19-year-old Albany and Sweet Home youth was in Linn county jail today facing a petty larceny charge after state police charged he was caught in the act of stealing gasoline from the B & G Sand and Gravel company plant about four miles north of Albany. Awaiting disposition of his case is David Clarence Roscoe, 19, who came to Albany from Sweet Home recently.
