Air Force to Drop Reservists

Washington (AP)—The Air Force will have to drop about 6,800 reserve officers, it says, regardless of whether some of them may be inconvenienced by early return to civilian life.

About 12,500 reserve officers will be let out in the next 60 days, with an estimated 6,000 ending their service voluntarily, to make way for young men coming out of the Reserve Officers Training Corps program. The Air Force announced several weeks ago that the action would be necessary.

Air Force spokesman said last night they have received reports that an undetermined number of reserve officers being dropped will be put to some personal inconvenience. But they said no way out of the difficulty has been found under current strength ceilings and the obligation to make a room for ROTC graduates.

Moose Killed in Truck Collision

Fairbanks, Alaska (AP)—A moose and a truck collided on Airport Road in the city limits here and the wrecker picked up the moose for a change—the truck was able to leave under its own power.

John Stephi said he was going about 40 miles an hour when he struck the moose. The animal was tossed on the hood and struck a horn through the windshield.

The wrecker took the one-ton truck to a nearby garage, where the moose was killed. The animal was dressed and given to Fairbanks charitable institutions.
