

# Colonel Forced by Reds To Radio Broadcast

Freedom Village, Korea (AP)—An American lieutenant colonel said today he and a group of fellow prisoners facing starvation were forced by the Reds to make a propaganda broadcast over Pyongyang radio.

The men "felt very bad" about the broadcast, said Lt. Col. Paul V. Liles of Columbus, Ga., but they were so weak "they couldn't even march around the yard." And the Reds threatened any who refused to broadcast with a 100-mile march back to prison camp at Pyoktong.

"That was tantamount to a death sentence," said Liles in an interview following his liberation at Panmunjom today.

Liles was captured in the fall of 1950 while serving as an adviser with a South Korean unit. He said that in the months that followed food was so scarce "several hundred prisoners starved to death."

He said he approached camp authorities and asked to be allowed to appeal for food packages. Instead, the Reds collected 20 men and took them to the North Korean capital, Pyongyang, promising they would be allowed to appeal on the radio for Air Force food drops.

A Korean doctor who examined the POWs in Pyongyang found all were suffering from "extreme malnutrition" and insisted that they get eggs and meat, Liles said.

Korean guards sent to look for meat came back with one dog.

"It was delicious," Liles said. On the broadcast, he related: All of the men were allowed to write speeches, but the North Koreans edited them to insert anti-American propaganda.

"I objected but the North Korean major said anyone who failed to make a speech would be marched back to Pyoktong on foot."

# Hawker Record Hits Obstacle

Littlehampton, England (AP)—Britain reckoned Wednesday that her swept-wing Hawker jet fighter is the world's fastest jet plane—on the public books—but a technicality kept her from claiming the record.

The Royal Aero club announced Tuesday night that RAF squadron leader Neville Duke raced a Hawker four times over an official three-kilometer course at an average speed of 722 miles an hour during a full day of clockings Tuesday.

That exceeded the 715.69 m.p.h. done in July by U. S. Air Force Lt. Col. W. F. Barnes in a Sabre jet fighter. Barnes' record has been submitted to the Federation Aeronautique Internationale, the world authority on air speed, for approval.

The federation's rules require a new record to be one per cent faster than the previous. To supplant the Sabre, the Hawker will have to fly 722.85 miles an hour.

The RAF speedster, Britain's top test pilot, said he'd try again in a few days.
