

COME TO THE FAIR - WE'RE THERE

Oregon's State Fair opens Saturday and while some of the exhibitors are arriving finishing touches are being added to the grounds. Top left, Melvin Frost, Rainier, Oregon, brings in one of the cattle being exhibited by Alfred Burnham of Rainier, a relative of Frost. Top right, William Riley, Salem finishes painting benches for the grounds. Center left, Ed Stultz, Portland, who for 25 years has been in charge of ushers and clean-up crews. In the past he had charge of both the horseshow stadium and the grandstand, now it is just the grandstand. Center right, part of the machinery being exhibited. Lower left, Brahma bulls that will be used for the rodeo. Lower right, Mrs. A. E. Ullman (seated) opens exhibits for the textile department.

Ike Returning To Denver

Fraser, Colo. (AP)—President Eisenhower planned to return to his summer White House in Denver today, unless another big trout influences him.

The President was ready to drive back to Denver yesterday, but he landed a big rainbow trout he had been trying to catch for days and decided to stay here an additional 24 hours.

Members of his staff reasoned that there were other large trout in the stream that conceivably could lead to another change in travel plans.

Mr. Eisenhower came here last Thursday for complete rest and relaxation at the Byers Peak ranch of Aksel Nielsen and Carl A. Norgren, both of Denver.

He started fishing for this particular trout Saturday. Yesterday after a morning of careful casting with a nine-foot fly rod, the President finally scored.

He caught a one and one-quarter pound rainbow trout measuring 15 1/2 inches, the prize of the mountain trip so far as his party was concerned.

Dix, Jr. Dies In Accident

Mount Shasta, Calif. (AP)—Richard Dix, Jr., 18-year-old son of the late movie star, was killed in a logging accident Monday at Pondosa, 39 miles east of here, Deputy Coroner Lloyd B. Noble, Jr., disclosed today.

Noble said the accident took place when young Dix was unloading logs and rolling them into a pond. An investigation of the accident was still under way.

The youth had been working in Siskiyou county for the past four weeks. He is survived by his mother, Mrs. Virginia Van De Camp of Beverly Hills.

Journalist 1st K & F Speaker

The first dinner meeting of the Salem Knife and Fork club, September 24, will be held at the armory instead of the Marion hotel. The armory will be used because alterations now in progress in the Mirror Room of the Marion will not be completed for the first meeting.

The speaker will be Robert S. Allen, Washington, D.C. journalist and founder and part owner of the Washington Merry-Go-Round. Allen served through World War II with the American Third Army and was on General Patton's staff.

Other dinner meetings scheduled for the season include: October 13, George Bailey "Salmagundi Show," Novem-

ber 12, John Fisher, "Canada—The Country in Between;" January 27, Harold C. Kessinger, "History Solutions for Today's Problems;" February 19, Miss Mary Lynn, "Facts About Communism;" March 5 (guest night), Bud Helmericks, "We Live in the Arctic;" March 24, Harold J. Kennedy, "Theatrical Funny Business."

UP Roundhouse and Six Locomotives Destroyed

Huntington, Ore. (AP)—Fire whipped by a northwest wind destroyed the Union Pacific Railroad's round house and six steam locomotives here early Wednesday and a collapsing wall put three firemen in a hospital.

Two fire chiefs joined in making what they called a rough estimate of three million dollars damage.

Only the brick walls of the structure were standing at dawn and part of one of these had a jagged tear where bricks had piled down on firefighters, injuring three from the Baker fire department.

One of the injured men, James A. Poston, 29, a volunteer fireman, was in a Baker hospital with a skull fracture, back fracture and rib fractures. His condition was described as serious. The others, Roland Campbell, 24, paid member of the Baker department, suffered a shoulder fracture, and La Verne E. Estese, 29, volunteer, bruises and shock.

The fire was discovered at 12:10 a.m., Huntington Fire Chief Ray Leedy said, and although it was attacked promptly the roundhouse was "a pile of grease and it took off like gasoline."

Crews ran two locomotives out of the roundhouse before the flames reached them. Then

the wiring burned out and there was no power to move the turntable.

The six remaining locomotives seemed to be pretty much a complete loss, Leedy said. They were used chiefly as helpers on long trains over steep grades in this area near the Oregon-Idaho border.

Down from the land of sky blue waters comes this tale of a wonderful, wonderful beer

How the fame of an unusual beer from Hiawatha Land has been spreading all over America. A friendly challenge to discover the pleasure it can bring to you.

For many years, vacationers from all over America have been coming to the land of sky blue waters.

They come to fish in cool, fresh-water lakes—to relax among fragrant pines—to enjoy the many refreshing pleasures of this enchanted land.

One of the pleasures they quickly discover is a brand of beer a little different from the others, with a unique, clean-cut flavor all its own.

Its name is HAMM'S.

What they learn about Hamm's

Those curious enough to ask learn that Hamm's Beer has been a Northland favorite since 1865.

Brewed in limited quantities in a brewery long noted by experts as one of the very finest in America.

Brewed to a unique standard of perfection established by Hamm's first Master Brewer and proudly continued through three generations of master brewers.

For many years the demand for Hamm's was greater than could be produced.

How the "word" got passed around

Each year, as thousands of vacationers made friends with Hamm's, more and more people asked, "Why can't I get your wonderful beer in my home town?"

And when they got home, they talked about the beer. And many of them asked their favorite dealer to order Hamm's for them.

In the last two years alone, more than one million people have switched to Hamm's—one of the fastest growing, most talked about beers in America.

Our friendly challenge to you

If you've never tried Hamm's Beer and have an open mind about good things, then try it at least once.

Be curious enough to discover the extra refreshing, clean-cut flavor that's yours in every glass of Hamm's—a flavor that just naturally seems to appeal to people that appreciate fine beer.

Be sure to ask for it by name—HAMM'S BEER—refreshingly yours from the land of sky blue waters.

Theo. Hamm Brewing Co., St. Paul, Minnesota
